DRAFT

Market Analysis for the Development of City Gate and Canal Cove, Rochester, NY

A.J. Costello & Son March 8, 2007

BACKGROUND AND OBJECTIVES

Report Preparation

Adam Ducker, Senior Principal Ann Glendon, Senior Consultant Scott Ewart, Associate Washington, DC (240) 644-1300

Background

A.J. Costello and Son is in the planning phase for two developments in Brighton, New York. One will be a gated residential community, while the other will be a mixed-use community.

Critical to the overall concept is understanding the depth of market and positioning strategies for small-lot single family homes, townhomes, condominiums, and rental apartments.

Objectives

RCLCO was retained to complete a strategic market analysis demonstrating the appropriate mix of residential product (rental and for-sale), price positioning of the product, and absorption potential.

METHODOLOGY

Site Analysis	Visited site and determined site characteristics in relation to current and future growth & development. Determined strengths & weaknesses of site.
Economic & Demographic Analysis	Compiled latest data and projected forecasts with respect to population, households, and employment growth trends.
Competitive Market Analysis	Identified and collected information on comparable rental and for-sale residential developments and existing home sales in the Rochester market, and evaluated their impact on the two subject developments.
Case Study Analysis	Identified relevant project case studies across the country, and analogous market data to support the subject site development, and identify key success factors and lessons learned.
Demand & Absorption Analysis	Prepared statistical demand forecasts based on demographic and competitive market data.
	Determined depth of the different residential markets and estimated absorption for units at the site.

COMMUNITY POSITIONING OVERVIEW

Each community will have a unique identity and market positioning, enabling the overall development to appeal to a wider audience and achieve greater sales volume

CANAL COVE

- ▶ An exclusive luxury community targeting affluent empty-nester / move-down buyers
- ▶ Elegant, refined community design and architecture in classic, traditional styles
- ▶ Wide array of luxury amenities, including a clubhouse and access to the canal
- Use Erie Canal as an asset, both as a recreational amenity, and as a springboard for the conceptual design of the community

CITYGATE

- ▶ An upscale urban community targeting young professionals and empty-nester buyers
- Energetic, sophisticated community combining the attractions of an urban lifestyle with the conveniences of new construction in a suburban location
- Convenient proximity to University of Rochester and nearby employment
- Duse the Erie Canal as an asset, both as a recreational amenity, and as a springboard for the conceptual design of the community

DEMAND AND ABSORPTION SUMMARY

Demand will come primarily from young professionals and empty-nesters. Despite the lack of analogous developments, Rochester has significant numbers of sophisticated, affluent buyers who would be attracted to high-end, urban-feeling communities.

For-Sale Demand Summary

Total Potential Buyers for High-Density Urban Product	4,265
Total Annual Buyers at Subject Sites	176
Average Monthly Absorption	
Single-Family Detached	3.5
Townhouses	4.7
Condominiums	6.5
TOTAL	14.6

Rental Demand Summary

Total Potential Renters	21,646
Total Annual Renters at Subject Site	209
Average Monthly Lease-Up Pace	17.4
Months to Lease-Up	18

UNIQUE PRODUCT AND EXCELLENT LOCATION MAKE SUBJECT DEVELOPMENT HIGHLY DESIRABLE

- Rochester economy and housing market will not inhibit development
 - Economy is in decent condition not growing, not contracting
 - Housing market is steady no major booms or busts
- There are affluent, sophisticated buyers in Rochester looking for high-end urban style product
- The local marker is not meeting the needs of high-end urban style home buyers
- Anniogous chies in Upatria Now York have seen successful projects target these beyons
- Dubiect sites have strong potential to the try high-density development
- Case Study projects from areas it the country can sted light on what to effer, and new to design it
- State of the state

ROCHESTER ECONOMY IS GENERALLY STEADY - NEITHER RAPID GROWTH NOR DECLINE

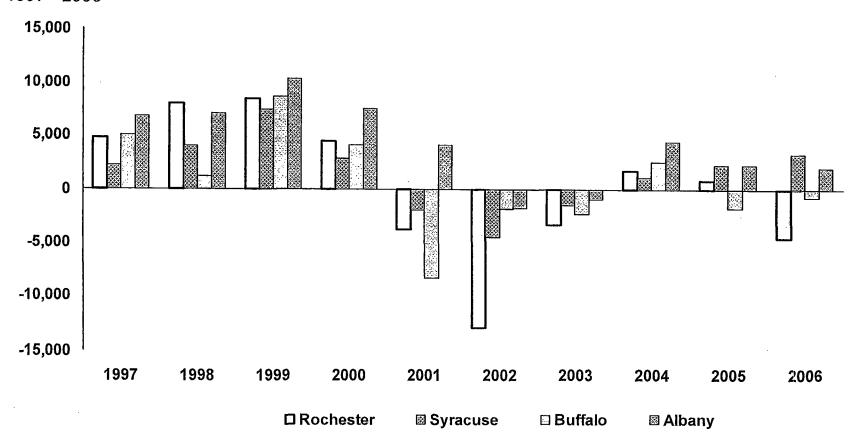

- Overall economic performance is steady
 - The Rochester economy is projected to have modest employment growth over next five years
- Manufacturing and production sectors have seen the worst job losses, but there is potential for future growth
 - 6,500 lay-offs at Kodak planned for 2007
 - Barilla will open a new manufacturing and distribution facility in 2007
 - New plant will likely encourage Rochester to grow as a distribution center
- Job growth in education and health services sectors will help offset negative economic impacts caused by a declining manufacturing sector
 - Rochester has a large, well-educated workforce for management and technology-oriented fields
 - University of Rochester, RIT continue to fuel growth in IT and biotech industries
- While the Rochester economy is not strong enough to fuel new housing demand, it is not weak enough to hamper more discretionary home purchases
 - It may not be a great time to be building houses on the suburban fringe to sell to newly relocated families
 - But it is a fine time build luxury homes for affluent young professionals and empty-nesters

ROCHESTER HAS EXPERIENCED WEAKER JOB GROWTH THAN OTHER UPSTATE NEW YORK CITIES

ROCHESTER HAS TRADITIONALLY BEEN A STABLE HOUSING MARKET DESPITE RECENT DECLINES

- For-sale market did not experience a boom in recent years, prices continue to remain affordable
 - Home prices have increased at a slower rate in Rochester than other Upstate New York cities
- Housing activity has declined recently, but may be an aberration
 - Building permits declined by 50% in 2006
 - Fear that job losses would reduce demand for new homes
 - Fear that nationwide culture of anxiety about home prices would slow demand

Total closings declined by only 4%

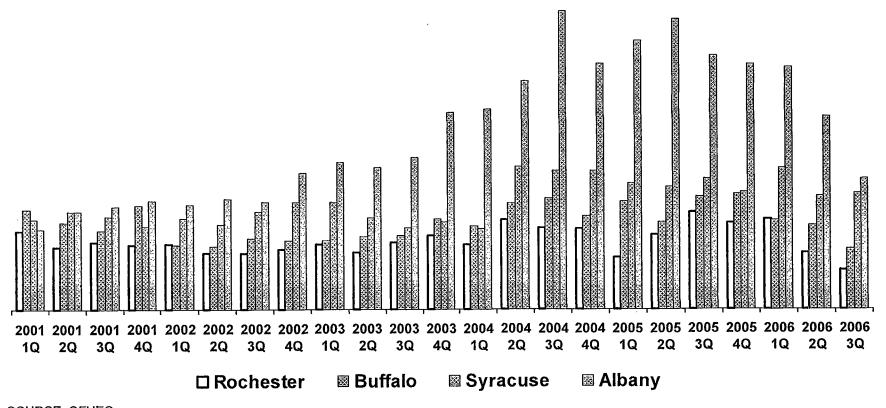

- Given relatively healthy demand compared to the sharp decline in new home supply, building permits will likely increase in 2007
- Rental market is stable
 - Rents are rising slightly
 - Vacancy fell in 2006, but is expected to rise slightly over next three years before falling again

CHANGES IN HOME PRICES IN ROCHESTER MSA ARE MODERATE RELATIVE TO OTHER UPSTATE N.Y. MSA'S

TARGET MARKET AUDIENCES: AGE GROUPS

Young Professionals

- Work in downtown, suburban employment cores
- Access to highways, employment cores, and proximity to downtown Rochester
- Proximity to retail, entertainment, and recreational areas is important
- Design and amenities are key to purchase / rental decision

Mid-Career Professionals

- Proximity to basic services and retail is important
- Access to transportation corridors, regional employment cores
- Have high standards for execution and design of community

Empty-Nesters/ Downsizing Households

- Downsizing, children leaving the house
- Proximity to town center, retail, services, medical facilities, cultural activities of downtown
- Location, amenities, maintenance-free lifestyle drives purchase / rental decision

Retirees / Snowbirds

- Retired, children out of the house, many spend winters in sunbelt locations
- Location, amenities, maintenance-free lifestyle drives purchase / rental decision
- Safe and serene atmosphere is important
- Proximity to entertainment and cultural amenities is key

TARGET MARKET AUDIENCES: LIFESTYLE DEMOGRAPHIC GROUPS

YOUNG PROFESSIONAL SEGMENTS

Enterprising Professionals

- Professional / management job
- Bachelors / graduate degree

LARGE NUMBER OF "SNOWBIRD" HOUSEHOLDS IN ROCHESTER

- ▶ 14% of all out-migration was to sunbelt retirement locations (FL, AZ, HI)
 - 1,138 moved to Florida, making it by far the most popular destination
 - Maricopa County, Arizona, however, was the most popular single destination, with 147 households moving there in 2004
- Many of these out-migrations are seasonal "snowbirds" who keep a house in Rochester, but change their primary residence to their winter home for tax purposes

Out-Migration from Monroe County by Destination

PROXIMITY TO UNIVERSITIES WILL ENHANCE APPEAL, BUT WILL NOT BE A MAJOR DEMAND DRIVER

Since large majority of students at both U.R. and R.I.T. live on-campus, and most are highly price-sensitive, students will not be a major source of demand. University faculty and staff will likely be a somewhat more important source of demand, but numbers are not large enough to make them a major demand driver.

University of Rochester

- > 8,425 students, including 4,420 undergraduates and 4,005 graduate students
 - Approximately 80% of students live on-campus
 - Most students who live off-campus live in privately rented homes, some live in garden apartment complexes close to campus
- ▶ 1,223 Full-time faculty
- 15,852 staff at both the university and the Strong Memorial Hospital

Rochester Institute of Technology

- ▶ 15,557 students, including 13,140 undergraduates and 2,417 graduate students.
 - Over 75% of students live on-campus
 - Most students who live off-campus live in privately rented homes, some live in garden apartment complexes close to campus
- ▶ 915 Full-time faculty
- 2,400 part-time faculty and staff

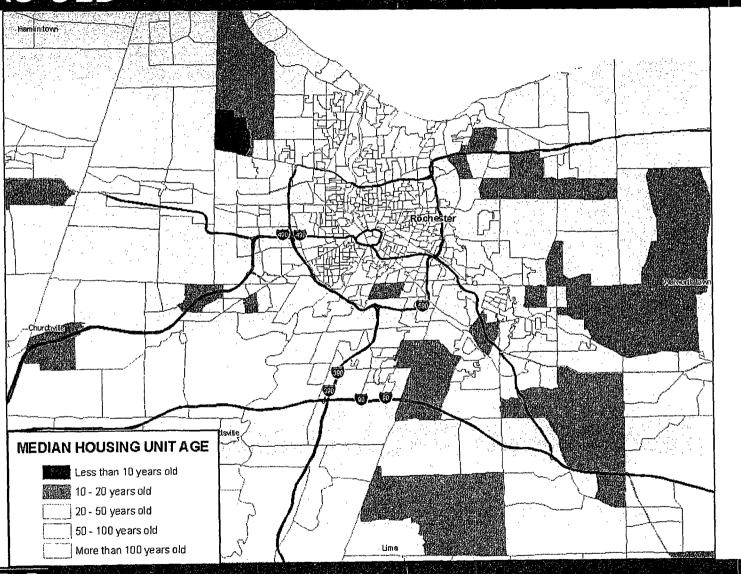

CONVENIENCE, LOCATION & TOWN CENTER ELEMENT MAKE SITE HIGHLY DESIRABLE

- Rochester aconomy and housing market will not inhibit development
- There are althorit, sophisticated buyers in Rochester tooking for high-end affacted arother
- The local market is not meeting the needs of high-end attached housing buyers
 - For-sale product is not offering strong value proposition
 - Rental product is either historic rehab downtown or garden complexes in fringe suburban locations
- Analogous cities in Costate New York have seen successful projects target those buyers
- Orbject sites have strong potential for incary high-density development.
- Case Stary projects from around the country con shed light or what to offer, and have to design it.
- A control of the second of the

NO TRULY COMPARABLE PROJECTS IN THE DEVELOPMENT PIPELINE

	Project	Units	Acreage	Developer	Notes
1	Holt Road Senior Development	118	22.7	Mitch Development, LLC	108 for-sale units in 54 duplex buildings
2	Legacy at Erie Station	200	10.2	Christopher DiMarzo	96 senior independent living apartments; 104 townhouses; will include a fitness facility, music rooms, library, and hair salon
3	East Rochester Site	93	20	Robert Nuccitelli	80 townhomes and 13 SFD; substantial interest from potential buyers; under construction
4	Blue Stone Creek at Fishers Park	226	75	S&J Morrell Inc.	100 apartments, 115 patio homes, 11 SFD; proposed, approval pending
5	LaSalle's Landing	120	22	NA	120 townhomes; would also include renovation of LaSalle's Landing park; still in conceptual phases
6	Unnamed Townhome Development	124	59	Wegman Cos.	124 townhomes; will include a clubhouse and a pool; about half the land will be preserved as open space
7	Erie Station Village Phase Two	80	17	Howard Konar	Expansion of existing Erie Station Village rental community

CAPTURE LATENT DEMAND FOR LUXURY ATTACHED HOUSING

- Rochester economy and housing market will not inhibit development
- There are affluent, sophisticated buyers in Rochester looking for high-end attached product
- ▶ The local market is not meeting the needs of high-end attached housing buvers
- Analogous cities in Upstate New York have seen successful projects target these buyers
 - Albany and Syracuse are demographically similar cities, and similar projects have worked there
- Subject sites have excellent potential for lunury high-density development
- Case Study projects from scound the century can shed fight on what to offer, and how to design it
- Detrived Rece and Absortion

The SUCCESS OF SEVERAL HIGH-DENSITY PROJECTS TARGETING SUBJECT DEMOGRAPHIC GROUPS IN ALBANY SUPPORTS THE STRENGTH OF SUBJECT SITE PROJECT

Albany, NY

- Albany is a medium sized city approximately 250 miles east of Rochester. It enjoys economic stability from its position as New York's state capital. Like Rochester, the Albany region has strong educational and research institutions. Albany has a slightly higher percentage of the total population in target demographic groups.
- Albany has seen a surge in high-end multifamily development in recent years. Tapping into latent demand, new projects have seen strong sales paces and escalating prices.

	Demographic Multiplier*
25 – 35	1.14
55 – 65	1.03
65+	1.16
OVERALL	1.09

Project	Product Overview	Buyer Overview		
Powers Park Lofts	18 condos; began selling in 2005; sold out quickly.	Mostly empty-nester / move-down buyers.		
The Lofts at Bryn Mawr	14 condos; began selling in 2005.	Mix of empty-nesters and young professionals.		
Planned Projects				
889 Broadway	Conversion of historic office building to 50 for-sale units.	.		
733 Broadway	New 10-story tower, with 122 for-sale units.	-		

^{* -} The demographic multiplier is a measure of how prevalent different age groups are in the case study market compared to Rochester; 1 = the same proportion of the given age group; < 1 = a smaller proportion; >1 = a larger proportion

THE SUCCESS OF SEVERAL HIGH-DENSITY PROJECTS TARGETING SUBJECT DEMOGRAPHIC GROUPS IN SYRACUSE SUPPORTS THE STRENGTH OF SUBJECT SITE PROJECT

Syracuse, NY

- Syracuse is a city slightly smaller than Rochester, 90 miles to the east. The target demographic households represent a smaller proportion of the overall population than in Rochester.
- Despite relatively weak economic and demographic conditions, Syracuse has seen several high-end multifamily development projects in recent years, and more are on the drawing boards.

Al Martin Lighter Carl	Demographic Multiplier*
25 – 35	0.89
55 – 65	0.83
65+	0.98
OVERALL	0.88

Project	Product Overview	Buyer Overview	
Mission Landing	Condominiums in renovated warehouse building; built in mid-1990s.	Mostly young professionals, with increasing numbers of empty nesters as the area became more established.	
Plum Court	Townhome development adjacent to Mission Landing; was built in the late 1990s.	Mostly young professionals and mid-career couples and singles.	
Loews Building	Renovation of historic building; 30 condos for sale ranging from \$140K - \$210K.	Mostly young professionals.	

^{* -} The demographic multiplier is a measure of how prevalent different age groups are in the case study market compared to Rochester; 1 = the same proportion of the given age group; < 1 = a smaller proportion; >1 = a larger proportion

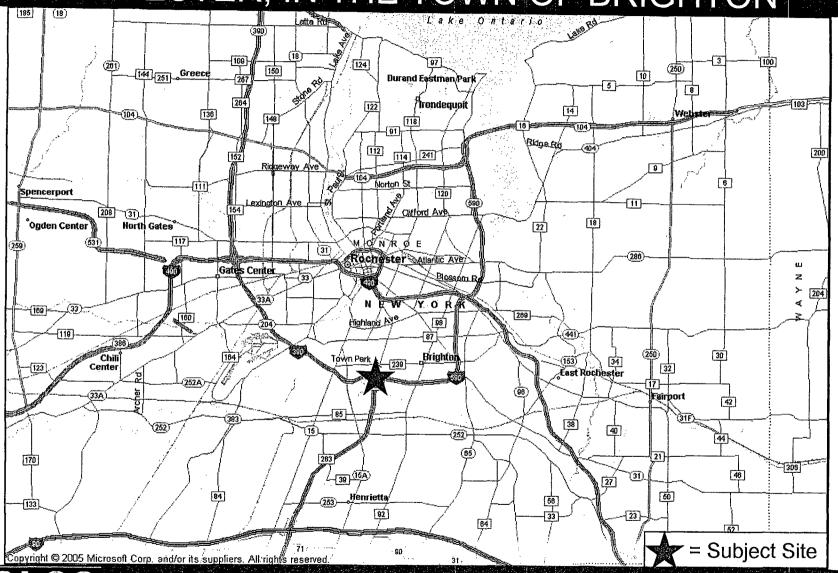

CONVENIENCE, LOCATION & TOWN CENTER ELEMENT MAKE SITE HIGHLY DESIRABLE

- Rochester economy and housing market will not inhibit development
- There are afflicat, sophisticated buyers in Rochester looking for high-end attached product
- The local market is not meeting the needs of high-end attached housing buyers
- Analogous cities in Upstale New York have seen successful projects target these movers
- Subject sites have excellent potential for luxury high-density development
 - Strong Location
 - Unique site attributes
- Gase Study projects from around the country can shed light on what to offer, and how to design it
- But the state of the same will be the same of the same

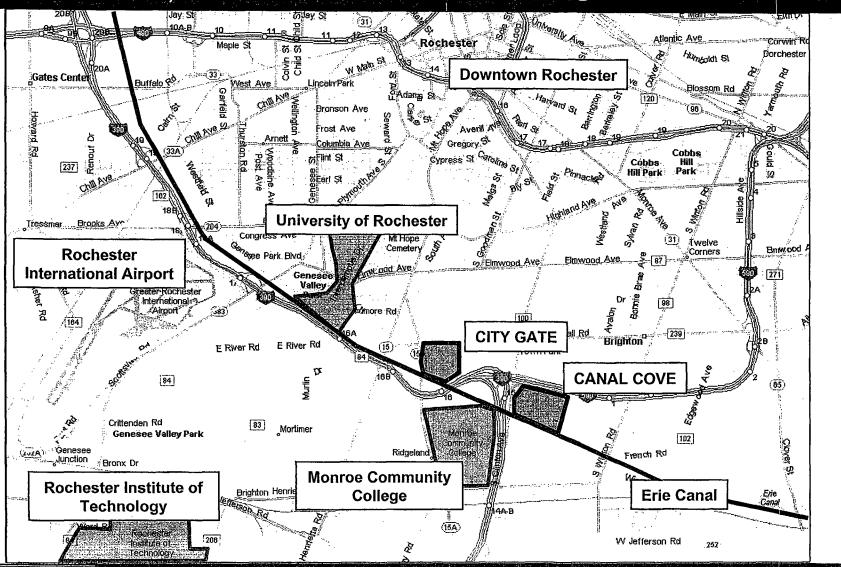

SUBJECT SITE IS LOCATED SOUTH OF THE CITY OF ROCHESTER, IN THE TOWN OF BRIGHTON

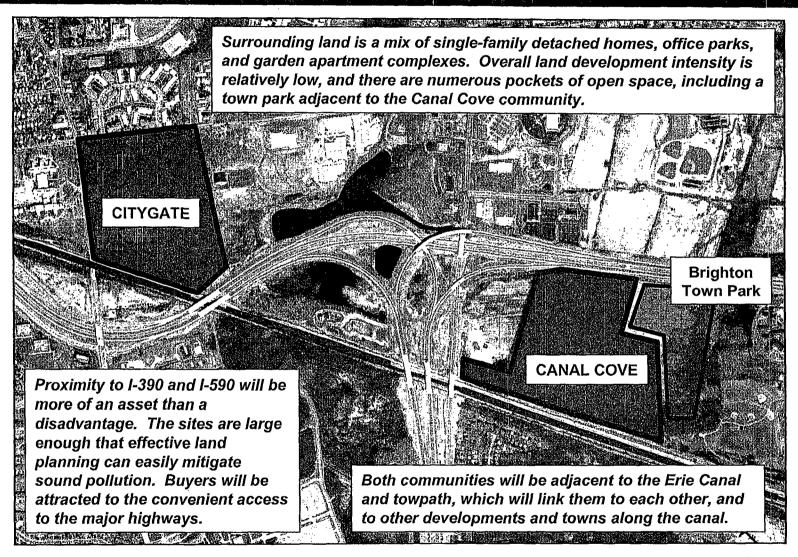

RCLCO

SUBJECT'S SITE LOCATION IS NEAR TRANSPORTATION, EMPLOYMENT, AND EDUCATION CENTERS

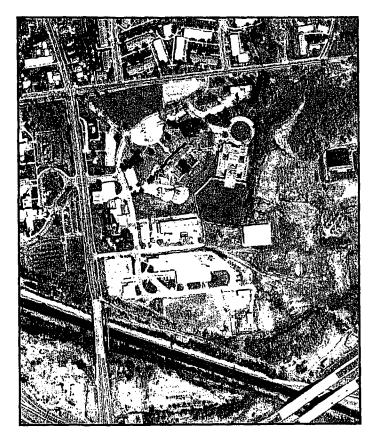

RCLO

SURROUNDING LAND USE ANALYSIS

SUBJECT SITE PLANS

SUBJECT SITES' STRENGTHS OUTWEIGH THEIR CHALLENGES

STRENGTHS

- Location offers convenient access to UR, RIT, downtown Rochester
- ▶ Erie Canal provides strong leisure amenity, and walk/bike transportation link with other towns in Rochester MSA
- ▶ Positive perception of town of Brighton in Rochester area

CHALLENGES

- Creating appealing sense of place
- Creating environment that appeals to target demographic groups
- Mitigate noise pollution from nearby interstate highways

CAPTURE LATENT DEMAND FOR LUXURY ATTACHED HOUSING

- IY O
- Rochester economy and housing market are healthy
- There are affluent, sophisticated buyers in Rochester looking for high-end attached product
- The local market is not meeting the needs of high-end attached housing buyers
- Analogous cities in Upstate New York three seen successful projects target these buyers
- ▶ Subject sites have excellent potential for textury high-density development
- Case Study projects from around the country can shed light on what to offer, and how to design it
 - Product types
 - Architecture and site planning
- Detailed Receased Absorption

HARTFORD COMMONS SUCCESSFULLY PIONEERED HIGH-DENSITY DEVELOPMENT IN SUBURBAN MINNEAPOLIS

Hartford Commons

Eden Prairie, MN

- Pioneering high-density development in an otherwise low-density affluent suburb of Minneapolis
- ▶ 318 Townhomes and Condos on 18 acres of land
- Buyers were mix of empty nesters and young professionals

Market Positioning	Slightly above the rest of the townhome and suburban condo market
Key Success Factors	Creating welcoming, distinctive design; offering low-maintenance product
Lessons Learned	Design can sell itself – sales exceeded expectations, likely due to appeal of community and lifestyle

Product Type	Mix	Price Range
TH	36%	\$229-259K
TH	44%	\$264-275K
Condo	20%	\$249-305K

EMPTY-NESTER BUYERS WERE DRAWN TO THE LOW MAINTENANCE LIFESTYLE AND COMMUNITY-FRIENDLY DESIGN

Hartford Commons

Eden Prairie, MN

Key Features and Amenities	Richly landscaped public areas. Tree-lined sidewalks.
Key Design Factors	Front porches and stoops on townhomes provide residents with many of the same elements found in SFD homes. Alleys behind the townhomes provide access to tuck-under garages, providing uninterrupted street-front facades

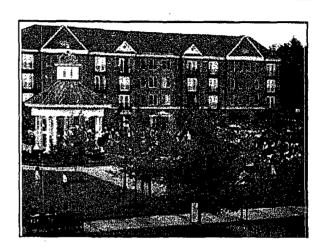

PORT WARWICK SUCCESSFULLY PIONEERED HIGH-DENSITY DEVELOPMENT IN BLUE-COLLAR NEWPORT NEWS

Port Warwick

Newport News, VA

- Mixed-use high-density development in Newport News. The project was successful in an area that was not thought to have demographic groups to support a project like Port Warwick.
- 276 Condos, Townhomes, and Single-family homes for sale, and 150 rental apartment units.
- Sales began in 2003 and sold out in 2006

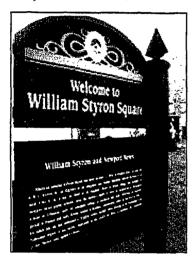

Market Positioning	Product was positioned in-line with high- end product in affluent outlying towns in the Newport News / Norfolk / Virginia Beach area. The sales pace was much higher than expected.	
Key Success Factors	Strong attention on place-making. Worked with noted local writer William Styron in naming streets and places.	
Lessons Learned	There are many more buyers interested in this type of product than anyone involved in the project anticipated.	

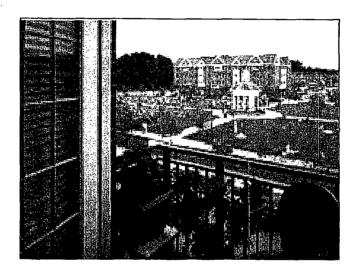

Product Type	Mix	Price Range	Size Range	Avg. \$/SF
SFD	33%	\$289- 433K	1,880- 3,000	\$148
TH	33%	\$229- 305K	1,521- 2,144	\$146
Condo	34%	\$250- 350K	1,200- 2,500	\$166

BUYERS WERE DRAWN TO THE WIDE ARRAY OF SOFT PROGRAMMING AND COMMUNITY-FRIENDLY DESIGN

Port Warwick Newport News, VA

Key Features and Amenities	Public park and mix of retail and commercial development has been key to project's success. Events such as musical concerts, theater, and fine arts and crafts fairs have successfully brought residents to the central square, and buyers to the community.
Key Design Factors	In addition to the lively central square ringed by ground-floor commercial development, public art has been installed throughout the community to add to the sense of place. Alley-loaded homes, with no unsightly garages visible from the streets, have also been a key selling point.

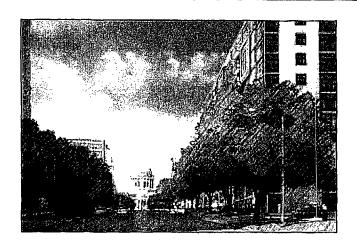

C. PITOL WEST IS CREATING A BRANT HIGH-DENSITY COMMUNITY TARGETING YOUNG PROFESSIONALS AND EMPTY NESTERS

Capitol West

Madison, WI

- Mixed-use development covering a large city block in central Madison
- ▶ 173 Condos and Townhomes in current phase, with total of 375-450 units anticipated at build-out
- Buyers have mostly been young professionals and mid-career couples and singles
- Sales began in late 2005

Market Positioning	Positioned at a roughly 10% premium to small multifamily in-fill developments downtown, and a 50%+ premium to new suburban multifamily development.	
Key Success Factors	Contemporary design, and high level of service amenities (concierge, etc.) meet the demands of sophisticated buyers.	
Lessons Learned	In an increasingly competitive urban multifamily market like Madison, the highest level of execution is essential for success.	

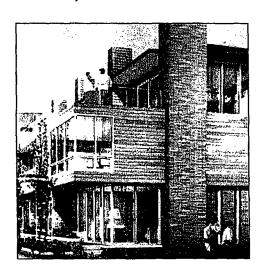

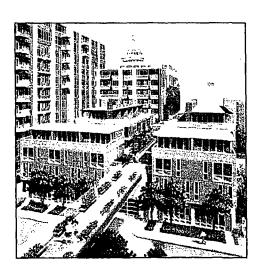

Section Name	T <u>y</u> pe	Units	Size Range	Price Range
Capitol Court	TH	10	1,663-1,843	\$400- 500K
Washington Rowhouses	TH	5	2,152	\$550K
309 W. Washington	Condo	126	651-1,565	\$180- 800K
Main Street	TH	9	1,649-1,762	\$350- 400K
Broom Street Lofts	Condo	23	655-1.300	\$219- 330K

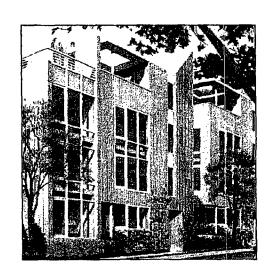

BUYERS HAVE BEEN DRAWN TO THE HIGH-QUALITY CONTEMPORARY DESIGN AND THE LIVELY URBAN COMMUNITY

Capitol West Madison, WI

Key	Features
and	Amenities

Ample private terraces, and community open-space. Fireplaces, multi-room audio and climate control panels. Concierge and extensive fitness facilities. Creative "fitness amenity" are the stairwells in the high-rise with calories burned numbers at each floor for walkers.

Key Design Factors

Ample open space and greenery. Pedestrian spaces activated by adjacent retail ensure lively urban atmosphere. Contemporary home design appeals to sophisticated, urbane buyers in Madison.

BOWN CROSSING IS SUCCESSFULLY PIONEERING HIGH-DENSITY AND MIXED-USE DEVELOPMENT IN SUBURBAN BOISE

Bown Crossing

Boise, ID

- Mixed-use development in suburban Boise, offering high-density residential adjacent to a retail town center.
- 85 Condos, Townhomes, and Single-family homes.
- Buyers have been young professionals and families who work in downtown Boise.
- ▶ Began selling in 2005

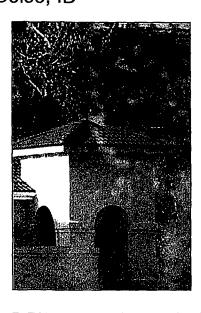

Market Positioning	Positioned at roughly 10% premium to smaller but comparable new multifamily developments, and 100%+ premium to suburban single-family developments	
Key Success Factors	Offering a product that tapped into latent demand for low-maintenance, high-density lifestyle in Boise. Site design that creates small pocket neighborhoods within the community.	
Lessons Learned	Town center component helped to increase absorption and prices.	

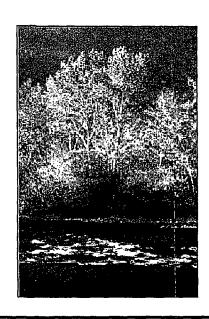

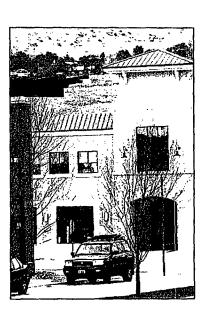

Product Type	Units	Size Range	Base Price
Lofts	8	815 - 1,176	\$329K
Townhomes	14	1,640 - 1,953	\$410K
Patio Homes	18	1,805 – 1,870	\$434K
Custom SFD	45	NA	\$600K

BUYERS HAVE BEEN DRAWN TO THE APPEALING DESIGN AND THE ADJACENT TOWN CENTER

Bown Crossing Boise, ID

Key Feat and Ame		Proximity to Boise River, and to outdoors recreation areas. Town center.
Key Desi Factors	gn	Created three separate neighborhoods, each with its own character: the town center, with condos over retail; "The Rookery", with a mix of townhomes and patio homes; and the custom SFD neighborhood. The intimate scale of each neighborhood encourages community and enhances the sense of place.

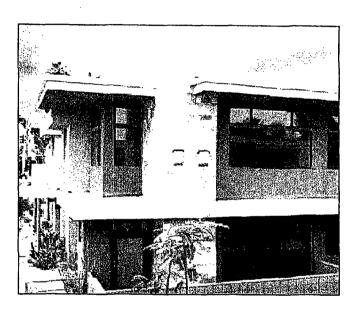

S BJECT SITES REPRESEN DINIQUE OPPORTUNITY TO CAPTURE LATENT DEMAND FOR LUXURY ATTACHED HOUSING

- Rochester economy and housing market are healthy
- There are afficent, sophisticated buyers in Rochester looking for high-end attached product
- The local market is not meeting the needs of high-end attached housing buyers
- Analogous cities in Upstate New York have seen successful projects target these buyers
- Bubject sites have excallent pointful for uncary high-density development
- ▶ Case Study projects from around the country can shed tight on what to offer souther to not be for
- Detailed Recs and Absorption
 - Canal Cove
 - City Gate

PRODUCT DESIGN RECOMMENDATIONS BIG HOUSE CONCEPT

- Four to ten units in each building, designed to look at first glance like a very large single-family home
- No obvious parking lots, breezeways, or balconies normally associated with multifamily housing
- Typically includes a mix of smaller (700 SF) and larger (2,000 SF) units, as opposed to traditional "plex" housing, which has units of all one, typically large, size

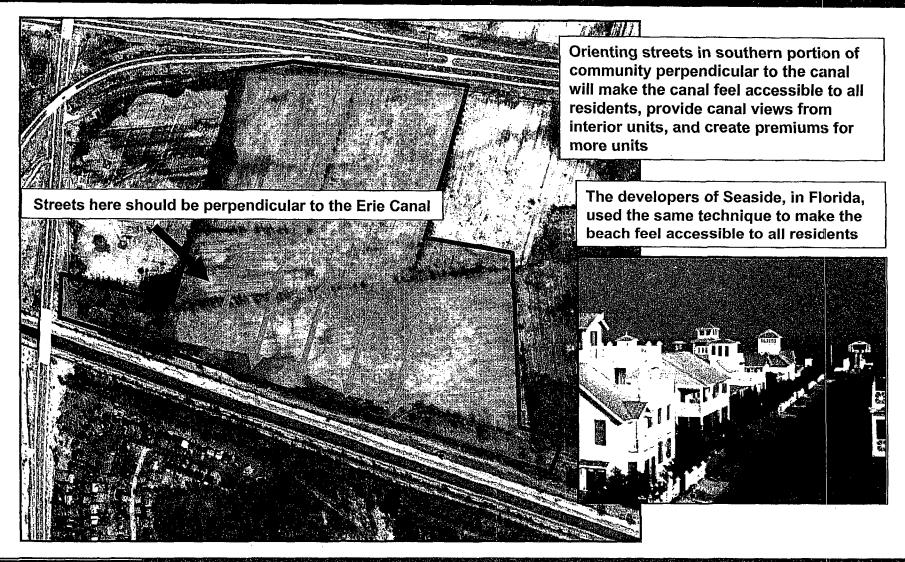

PRODUCT DESIGN RECOMMENDATIONS BIG HOUSE CONCEPT

COMMUNITY DESIGN RECOMMENDATIONS MAKING ERIE CANAL AN ACCESSIBLE ASSET

CANAL COVE DESIGN RECOMMENDATIONS DESIGN AND EXECUTION OVERVIEW

> The community needs to feel relaxing, like a world apart from Rochester

- Create lush landscaping and beautiful construction
- Create a "decompression zone" at the entrance a stretch of road that is beautiful and calm, and lets residents relax as they enter the community and approach their homes

> The community needs to appear stately, elegant, and refined

- Use a Craftsman, Federal, or Greek Revival architectural style throughout the community
- While the product types and densities will make the community feel relatively urban, aim for the elegant urbanity of neighborhoods like Georgetown in Washington, DC, Back Bay in Boston, or Shaker Heights in Cleveland

High level of execution

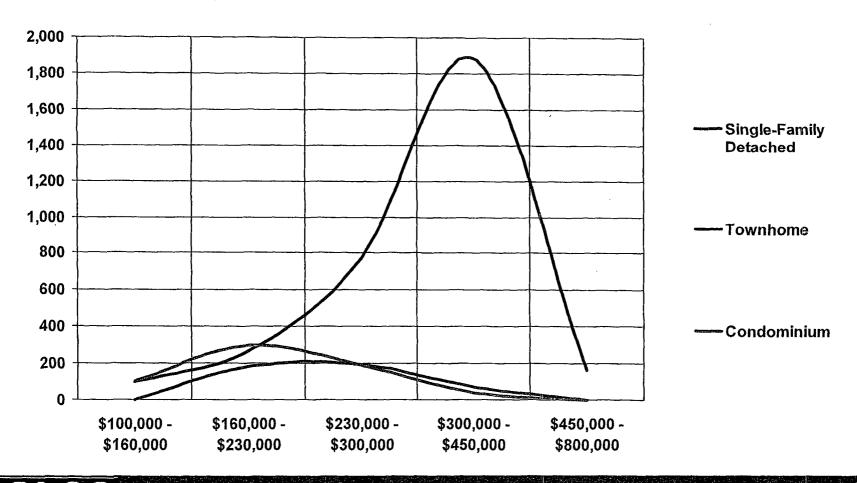

- Everything from site planning to architecture to signage and landscaping needs to be carefully designed and executed
- High-end buyers are both discretionary and sophisticated they spend their money carefully and take their time to make decisions
- High-end mixed- and multiple-uses developments of this kind are new in the Rochester market.

PROGRAM RECOMMENDATIONS WERE DRIVEN BY DEMAND BY PRODUCT TYPE AND PRICE RANGE

Demand by Product and Price Range

PROJECT-WIDE DEVELOPMENT AND EXECUTION RECOMMENDATIONS

Effective place-making will be crucial for success of the project

- Create distinct neighborhoods within each community evoke feeling of intimacy and approachability
- Create sense of authenticity throughout communities by invoking local people and history
- Activate open spaces by making them functional (e.g. dog park, fitness park, amphitheater), and walking paths that lead to specific destinations

Emphasize the uniqueness and the high-quality of the communities in marketing

- Need to overcome buyers' unfamiliarity with this type of project
- Make it plain that the communities offer an appealing value

Maintain actively control over builders

Since careful attention to detail will be crucial, make sure builders are following your guidelines to ensure overall project success

and the contract of the standard part of the contract of the c

CRITICAL ASSUMPTIONS

The conclusions and recommendations presented in this report are based on our analysis of the information available to us from our own sources and from the client as of the date of this report. We assume that the information is correct, complete, and reliable.

Our conclusions and recommendations are based on certain assumptions about the future performance of the global, national, and/or local economy and real estate market, and on other factors similarly outside either our control or that of the client. We analyzed trends and the information available to us in drawing conclusions and making the appropriate recommendations. However, given the fluid and dynamic nature of the economy and real estate markets, it is critical to monitor the economy and markets continuously and to revisit the aforementioned conclusions and recommendations periodically to ensure that they stand the test of time.

We assume that, in the future, the economy and real estate markets will grow at a stable and moderate rate. However, history tells us that stable and moderate growth patterns are not sustainable over extended periods of time. Indeed, we find that the economy is cyclical and that the real estate markets are typically highly sensitive to business cycles. Our analysis does not necessarily take into account the potential impact of major economic "shocks" on the national and/or local economy and does not necessarily account for the potential benefits from a major "boom." Similarly, the analysis does not necessarily reflect the residual impact on the real estate market and the competitive environment of such a shock or boom. The future is always difficult to predict, particularly given changing consumer and market psychology. Therefore, we recommend the close monitoring of the economy and the marketplace. The project and investment economics should be "stress tested" to ensure that potential fluctuations in the economy and real estate market conditions will not cause failure.

In addition, we assume that economic, employment, and household growth will occur more or less in accordance with current expectations, along with other forecasts of trends and demographic and economic patterns. Along these lines, we are not taking into account any major shifts in the level of consumer confidence; in the cost of development and construction; in tax laws (i.e., property and income tax rates, deductibility of mortgage interest, and so forth); or in the availability and/or cost of capital and mortgage financing for real estate developers, owners, and buyers. Should any of the above change, this analysis should probably be updated, with the conclusions and recommendations summarized herein reviewed accordingly (and possibly revised).

We also assume that competitive projects will be developed as planned (active and future) and that a reasonable stream of supply offerings will satisfy real estate demand. Finally, we assume that major public works projects occur and are completed as planned.

GENERAL LIMITING CONDITIONS

Reasonable efforts have been made to ensure that the data contained in this study reflect accurate and timely information and are believed to be reliable. This study is based on estimates, assumptions, and other information developed by RCLCO from its independent research effort, general knowledge of the industry, and consultations with the client and its representatives. No responsibility is assumed for inaccuracies in reporting by the client, its agent, and representatives or in any other data source used in preparing or presenting this study. This report is based on information that to our knowledge was current as of the date of this report, and RCLCO has not undertaken any update of its research effort since such date.

Our report may contain prospective financial information, estimates, or opinions that represent our view of reasonable expectations at a particular time, but such information, estimates, or opinions are not offered as predictions or assurances that a particular level of income or profit will be achieved, that particular events will occur, or that a particular price will be offered or accepted. Actual results achieved during the period covered by our prospective financial analysis may vary from those described in our report, and the variations may be material. Therefore, no warranty or representation is made by RCLCO that any of the projected values or results contained in this study will be achieved.

Possession of this study does not carry with it the right of publication thereof or to use the name of "Robert Charles Lesser & Co." or "RCLCO" in any manner without first obtaining the prior written consent of RCLCO. No abstracting, excerpting, or summarization of this study may be made without first obtaining the prior written consent of RCLCO. This report is not to be used in conjunction with any public or private offering of securities or other similar purpose where it may be relied upon to any degree by any person other than the client without first obtaining the prior written consent of RCLCO. This study may not be used for any purpose other than that for which it is prepared or for which prior written consent has first been obtained from RCLCO.

COMMENTS

The live/work units are 24x36 with 3 above ground levels and an unfinished basement. The ground floor is retall, the second level consists of three office suites with a reception area, and the third floor can either be a duplicate of the second floor or a 1B/1b apartment/condo. The units are double fronted with 2-assigned parking spaces in the "back' (or residential side) of the building.

Villages of Urbana	Live-work Townhomes	2006	12/12	24	\$775,000 - \$825,000	2,052 - 2,052		N/A	2 052	\$800 000	\$300

DESCRIPTION:

The twelve live/work units are located across the street from the 130,000 SF grocery-anchored, retail centered. The twelve units sold in two weeks primarily to investors - many of the same investors who purchased in the Kentlands. An unknown number of live/work units are planned for next year. Product size is for heated SF on 3 levels and thus does not include the unfinished basement.

Monthly Absorption

The project was built by two builders/developers: Mitchell-Best (the odd number units) and Parkwood Homes. The units are either 3-4 above ground floors, and all include basements. The living area is typically 1-2 floors, depending on the builder and end user preference.

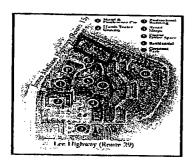

COMMENTS

Kentlands Live-work Townhomes Jun-02 34/34 17 \$300,000 - \$400,000 3.500 - 4.200 \$1,100,000 - \$1,900,000

DESCRIPTION:

The majority of the units were originally purchased by investors. Most owners have rented both the residential and retail space to various tenants. The commercial space is being used by a variety of tenants, including national insurance companies, and a number of local businesses. Some of the original investors are living in the units and renting the additional retail space. There have been few resales to date, with the latest unit being offered at \$1.9 million.

COMMENTS

12 units are divided amongst three pads with four attached units per pad. They will have duel fronts with the ground floor retail space facing the main road and the residential on the opposing side facing small lot singles. The units are likely to be 4 stories on slab with integral garages on the residential side and parallel street parking on the retail side.

The community of Madison Crescent will cover 43 acres at the intersection of Routes 15 and 29. The project will contain 242,000 SF of office space, a 16,000 SF hotel with 120 rooms and a conference center, 124,000 SF of retail space anchored by a 52,000 Harris Teeter, 144 residential townhomes, 60 single family homes, and eventually 12 live work units. A portion of the office space is completed and is being rented, the retail space is set to open July 2007 and residential sales will begin Spring 2007.
