Keep whining that you want a union. This shows us your value to our community.	TERMINATE THE PAB. The ONLY presence you have in the community is the shameful airing of EXTREMELY unprofessional and dysfunctional behaviors of the staff. You are an embarrassment to ROC.	The PAB is an infuriating joke. We could be using the funds allocated to this debacle to feed children, hire MH workers and drug treatment options, hire more officers, etc. Instead, you are a bandwagon of racist, anti-police, thug huggers who can't find their way out of a paper bag, let alone start an agency funded at a level to make it a "world class model for the nation." This is an absolute clown car of unproductive tax leaches, paid 2-3x the salaries of social workers and cops. They all need to be fired. Reallocate the money.
358	60 and up	14526	Not effective	Not confident	Somewhat familiar	Not present	Not transparent	Never	Nothing about the PAB should be continued. It has been an ill conceived, dysfunctional mess from day one.	Stop publicly embarrassing yourselves and get down to quiet, dignified work of cooperating with RPD to improve law enforcement in this hell-hole of a city. Stop the childish tantrums, the self-conscious virtue signaling, the anti-cop bias, and the union advocacy for a staff that is already grotesquely overpaid.	How do we get the money back from the PAB fiasco to provide real help for the people of Rochester? More services for the homeless, better education, better mental health services, and more cops would be money much better spent.
392	30-45	14526	Not effective	Not confident	Somewhat familiar	Not present	Not transparent	Never		They criticize the police for not being transparent, then when they have their own personnel problems they are not transparent at all. It is also obvious that many of the PAB members are anti-police. Therefore, an unbiased and independent review or investigation of the police by them is not possible. This means they are unable to fulfill their purpose, as is.	The PAB seems very unrealistic and selfish in their expectations, while being unwilling to act appropriately themselves.

I would like to see RPD drop their lawsuit so that PAB has greater input in the disciplinary process. I would like to see greater engagement with the community, so that citizens know how to submit claims and how to follow up.	I would like to see City Council and the Mayor's Office bring pressure on RPD to provide required documentation to the PAB. I would like to see City Council fill Board seats promptly. I would like to see City Council and the Mayor's Office support PAB employees and not the wholesale gutting of the agency.	How can the PAB be "effective" and "present" when the City and the RPD have thrown up one road block after another. From its inception, the City has denied the agency equitable treatment with other City departments and agencies (e.g. HR posting job openings for shorter periods than similar open positions, not paying equal rates as comparable positions, not giving employees access to HR personnel to submit grievances). The agency was denied security, a secure WiFi connection, and even garbage pick up. Senior staff was able to fire staff for minor infractions and made the working environment as uncomfortable as possible. Then the City Council & Mayor's Office thwarted the employees' efforts to unionize. City Council has slow walked appointment of nominees to open Board seats to the extent that one seat has been open for over 300 days! Council has not even seated their own representative and now the Mayor's seat is empty. Looking in from the outside, it seems apparent that our City government has done its level best to destroy the PAB. Who knows why, but they have continued to support the Locust Club & RPD with robust employment contracts with benefits that outstrip many other similar-sized city forces. This while freezing hiring, freezing spending, and then complaining that "nothing is getting done" at the PAB. Often people wonder why this affects the suburbs outside the City of Rochester, but the entire Greater Rochester depends on the health of Rochester as a wheel depends on its hub. The PAB is historic legislation and the county, NY state, and the whole country is wondering how important the accountability of those who "serve & protect" everyday citizens can be when our current leaders have signaled that it is NOT important to them. People who work and play in our City should feel they can safely engage with the police and to have recourse if they have a bad experience.

Right now the criminals know they will be released without consequences which allows them to continue with their criminal activity. We have gone from one end of the spectrum to the other. Our community is suffering and the police feel helpless to make change. Obviously the PAB needs to hold the police accountable for their behavior but also needs to update their training of officers to meet today's challenges. Mental health is a huge concern and the officers should be calling the appropriate crisis intervention personnel to deal with that and not deal with this on their own. Updated training is key. I am also disturbed by how the police interact with individuals who are experiencing medical issues that might result in combative behavior. I have personal experience with an incident that happened that I was considering suing both the EMT and officers involved. To this day, I will never call the police because of what I experienced.

We were just talking and a member of PAB came up to us asking to report any and all activity we see of the police. This gentleman handed out fliers on how to make complaints even if we didn't see them do anything bad. I quickly realized they were just trying to get a bunch of complaints in against the police because they were trying to justify their existence. Literally the week after that they said they had a bunch of complaints and investigations they were looking into. They definitely hit the streets literally telling people to make complaints and handing out fliers. I think this is wrong. It's just not right to go up to random people and tell them how bad the police are. I cannot support PAB. Their practices are just not right.

Get good leadership, have mission goals and fulfill the goals. Publish regularly the accomplishments of the PAB and corrective actions to be an effective body.		The city of Rochester has a huge problem with crime, gangs, drugs and weapons. Everyone should be working together to fix this terrible problems and THINK Outside the box. Make home ownership possible for those who have no home. Make neighborhoods special with small businesses, having micro loans for small business owners, assistance on branding a neighborhood so people feel safe to spend their time and money in the variety of neighborhoods Rochester could have. There is no reason why the poverty level should continue to be seriously low. For example, any business entity getting tax dollars should have a % of race, ethnic and gender workers that reflect the demographics of the city.

More distribution of materials, educating elected officials and their teams on how to support constituents who want to make a report and teach their offices the process to assist the PAB, materials distributed to non-profits and public spaces for how to contact the PAB and how to start a complaint and best practices for when a person believes they have been abused or have seen officers abuse their power

63	30-45	14626	Not effective	Not confident	Somewhat familiar	Not present	Not transparent	Never	Waste of a program and tax payers money. So none.	Visit the police and talk to them if they really care and want to see what's going on as an officer. Do ride alongs often and be involved. However I do not see them doing that.	
80	30-45	14626	Not effective	Not confident	Familiar	Somewhat present	Not transparent	Somewhat often	I would get rid of them.	I would stop wasting money on them. Kangaroo court	It seems to me that everybody on the board in one thing common, they do not like the police. I have zero trust in something that will always take the side against police.
98	46-59	14626	Not effective	Not confident	Very familiar	Somewhat present	Not transparent	Somewhat often	I like the fact they have no say in charging police. They shouldn't ever have that.	Honestly I feel the police are just fine and this is a joke of an organization.	From the news this year it sounds like PAB are the ones with the real ethical issues.

166	46-59	14626	Not effective	Not confident	Familiar	Not present	Not transparent	Never	The PAB serves no purpose to the community and is a waste of tax payers money.	The only improvement would be to cancel the PAB and stop funding a failing effort. There is nothing but negativity and infighting amongst this group that is supposedly policing the police. They can't even get a long with each other.	I have heard nothing positive or successful come from the PAB. All I do know is that they have taken funding from the Police and other agencies and have done nothing other than create drama and negative headlines. This community need more police and less people trying to defund and manage them. The PAB has been an embarrassment to themselves and the City of Rochester. It's unfortunate as it may have been a worthwhile venture but the performance of these bad actors falls in line with the many failed projects that the City has attempted, The Fast Ferry, Centers at High Falls, La Marketa, The Subway Bed Project, etc. Very sad that we have to waste time and energy on a survey that nothing positive can even be noted or mentioned.
