Choose the Chapel of Peace Mausoleum at Riverside Cemetery

The Chapel of Peace Mausoleum at Riverside Cemetery provides families with an intimate and peaceful environment in which to reflect and remember those who rest within.

The design of the mausoleum was inspired by the concept of the dove as a symbol of peace. The interior wings and chapel roof elements depict wing-like structures which separate slightly from the body of the building. These elements afford an abundance of natural light through windows above the interior spaces.

Facility Features

The facility features a non-denominational chapel with a capacity for over 70 persons and

consists of crypt spaces for 2,100 full casket interments and 1,800 niche spaces for cremated remains. A skylight provides bright natural light for the lobby area. The chapel room is situated directly in front of the lobby. Interior crypt rooms open to the right and left of the central lobby area and are mirror images of each other.

A variety of interior crypt options are available including single and side by side or tandem companion, all fronted with the beauty of marble and bronze lettering.

Interior niches are arranged both within these rooms and the corridors between the rooms. Interior niches are offered with either clear glass fronts for displaying decorative urns or with traditional marble fronts. Exterior granite fronted crypt and niche spaces are set within unique and intimate courtyard environments.
