

## *Mount Read Boulevard Corridor Study*

NYS Route 33 (Buffalo Road) to Stone Road

City of Rochester and Town of Greece

Monroe County

Project ID 124464, UPWP Task No. 7574

### **CONCEPT LEVEL OBJECTIVES**

The following are objectives for a future project or projects along the Mount Read Boulevard Corridor:

- (1) Support continued economic growth by improving mobility, operations, safety, and aesthetics.
- (2) Encourage the use of alternative modes of transportation, such as walking, bicycling and transit by improving pedestrian and bicyclist connectivity, incorporating design features that provide safer, accessible crossing opportunities, and supporting opportunities to integrate transit operations. New facilities must properly fit the roadway's class and function.
- (3) Provide appropriately scaled, cost effective aesthetic improvements that can be maintained with a reasonable amount of future effort such that they will retain their value to the community.
- (4) Establish a gateway between the City of Rochester and Town of Greece that announces the transition from an industrialized and commercial area to a suburban residential community.
