## 1 Apply for a Permit:

- Provide the name, address and phone number of the property owner, the permit applicant and, if applicable, the contractor and/or plan preparer.
- Provide a project description including the size and location of ramp.
- If the contractor is a homeowner or individual contractor without Workers' Compensation Insurance, a Workers' Compensation waiver must be submitted.
- If the contractor has employees, a Certificate of Workers' Compensation Insurance, naming the City of Rochester as the certificate holder, is required.

You can obtain these forms at the Permit Office and at [www.cityofrochester.gov](http://www.cityofrochester.gov), type "building permits" in the search box.

## 2 Follow Through with Application Requirements:

- Ensure that all necessary inspections are performed: footings and/or foundation depth before pouring concrete and setting posts; framing before enclosing; and final inspection upon completion.
- Ensure that all work is performed as per the plans submitted with the permit application; and that no damage or encroachment occurs to adjacent property during construction.

## 3 Supply Additional Submissions:

- You must also include two (2) copies each of:
- An Instrument Survey Map of the property.

- Construction details drawn to scale, including footings/foundation, plans and elevations. If ramp is located on structures other than one or two family dwellings and/or higher than 30", drawings may need to be signed and sealed by a design professional licensed in the State of New York.
