

HOW DO I KNOW IF MY HOUSEHOLD IS INCOME-ELIGIBLE?

If your total household income is below certain thresholds, you may be eligible for free or reduced-cost energy-efficiency improvements.

Program administrators will require documentation to verify income from all sources (employment, social security, etc.) for every person who resides in the household. The total household income must meet thresholds based on household size.

Income Eligibility Guide

2020 - 2021 Income Thresholds
