City of Rochester, NY
Rochester City Council

CR-05 - Goals and Outcomes

Progress the jurisdiction has made in carrying out its strategic plan and its action plan. 91.520(a)

This could be an overview that includes major initiatives and highlights that were proposed and executed throughout the program year.

The City of Rochester worked to balance the immediate needs the community faced as a result of the ongoing pandemic with the execution of the planned projects and programs as detailed in the 2022-23 Annual Action Plan. As illustrated below, the City met and exceeded its outcome targets for the vast majority of the goals outlined in the plan. This table does not capture the significant accomplishments the City achieved to prevent, prepare for, and respond to coronavirus with CDBG-CV and ESG-CV funds awarded to the City via the CARES Act. However, accomplishments achieved through both the regular and HOPWA-CV program are reflected in the table below.

A separate attachment is included with a full account of the CARES act spending and outcomes.

Comparison of the proposed versus actual outcomes for each outcome measure submitted with the consolidated plan and explain, if applicable, why progress was not made toward meeting goals and objectives. 91.520(g)

Categories, priority levels, funding sources and amounts, outcomes/objectives, goal outcome indicators, units of measure, targets, actual outcomes/outputs, and percentage completed for each of the grantee's program year goals.

Annual Action Plan Goal	Source / Amount	Indicator	Unit of Measure	Expected 5-Year Strategic Plan	Actual – Strategic Plan	Percent Complete	2022-23 Expected	2022-23 Actual	Percent Complete

Table 1 - Accomplishments – Program Year & Strategic Plan to Date

Assess how the jurisdiction’s use of funds, particularly CDBG, addresses the priorities and specific objectives identified in the plan, giving special attention to the highest priority activities identified.

The City appropriates its CDBG funds to provide critical services and programs, including housing, public services for senior citizens and youth residents, economic development, slums and blight remediation, and public works. Each of these programs primarily impacts and benefits the City of Rochester’s low- and moderate-income population.

The City exceeded its 2022-23 outcomes targets for housing units rehabilitated, rental units constructed, new homeowners assisted, public services, and emergency solutions grant homeless services.

Economic Development job creation results of CDBG funding were below expected outcomes as emphasis was placed on meeting f ARPA funding expenditure deadlines. Below, we highlight the many programs implemented by the Department of Recreation and Human Services (DRHS), who work tirelessly to innovate on our programs to meet the needs of city youth.

Assess how the jurisdiction’s use of funds cont. 1

DRHS current priorities for CDBG public services funding are programs and services that promote youth employment readiness and career development, positive youth development, and civic engagement. In the 2022-23 CDBG program year, DRHS hired 442 youth through the Summer of Opportunity Program and engaged 240 youth in the Youth Employment Training program. This year DRHS placed youth with 41 employers during the summer of 2022. Some employers continued to partner with DRHS to provide employment and internship opportunities for youth during the 2022-23 school year (September – June). DRHS was able to continue to provide youth entrepreneurship and arts education offerings through the ROC Paint Division mural arts crew. This project traditionally engages Rochester youth and local professional artists to create, develop and install both small and large scale, interior and exterior public arts projects. This year the team focused on the creation of large scale mural installation at Trenton & Pamela Jackson R-Center and Willie W. Lightfoot R-Center as well as arts education activities for youth at these R-Centers.

DRHS continued to support science, technology, engineering, arts, and math (STEAM) educational opportunities through the STEAM Engine allocation. The STEAM Engine consists of two separate program offerings, the Rec on the Move STEAM Engine and the ROCmusic program. Rec on the Move/STEAM Engine, which served 4,857 participants during the 2022-23 program year, is a free mobile recreation program that incorporates a STEM focus in everyday play in underutilized parks and green spaces in Rochester. ROCmusic is an after-school year-round community-based music enrichment program that provides free access to music instruction, instruments, ensemble experiences, and performance opportunities. The program focuses on classical, contemporary, and cultural music through instrumental music instruction on orchestral strings (violin, viola, cello, bass), brass (trumpet, trombone), and rhythm section (bass guitar, keyboard, drum set, studio production) instruments. ROCmusic also includes Gospel Choir and African Drumming electives. In addition to instruction, students have special access to guest artists and local cultural events, with transportation and meals arranged at no additional cost to the students or families. In the 2022-23 program year, ROCmusic served 131 youth ages 6 to 18. Generally, programs are offered at the David F. Gantt, Frederick Douglass, Edgerton, and Jackson R-Centers, with a few satellite opportunities at School 19/Lightfoot R-Center and East High School. Over the 2022-2023 school year, ROCmusic students gave twenty performances at venues around town, ranging from parks and festivals to major performing arts centers. One of these performances was a side-by-side concert with the Rochester Philharmonic Orchestra at the Edgerton R-Center. ROCmusic students each sat next to a RPO musician within the orchestra, providing an incredible, invaluable opportunity to experience playing in a professional orchestra. DRHS also continued delivery of the Youth Voice One Vision youth leadership board, the Mayor's Youth Advisory Council. Youth Voice One Vision provides youth-led civic engagement support to Rochester youth ages 12 to 25 participating in DRHS leadership training programs. CDBG funding was utilized to support staff to coordinate youth civic and community engagement opportunities such as: advising the Rochester Police Chief while being exposed to various sections of the Rochester Police Department (career pathways), working with the community to influence and make policy changes that impact Rochester's youth, creating youth mental health workshops (grant from the Wilson Foundation), developing a leadership curriculum for

the youth leadership groups in the recreation centers and other leadership programs within the City, partnership with Nazareth University Community Youth Development Program (learning/creating leadership workshops for youth leaders), attending/planning various Summits hosted by the National League of Cities, Dale Carnegie of Rochester Training (public speaking and communication skills), partnership with the Project Management Institute at the University of Rochester (learning project management skills & and being exposed to summer internship opportunities), leadership skills development including social and interpersonal skills, conflict resolution, event planning, service learning, team building, and decision-making.

DRHS also expanded its environmental education program offerings through youth focused workshops at R-Centers and City park locations as well as family friendly programming including bike rides, nature hikes, and guided paddles on the Genesee River. A highlight of DRHS environmental programming was a new year-round series called the Flower City Feeling Good Series (FCFG) focused on getting youth and families outside and active. Activities in the FCFG series were inspired by the City's Children's Outdoor Bill of Rights (COBOR), which outlines various experiences in nature that every child in the City should have access to such as following a hiking trail, learning to ride a bike, etc. DRHS staff offered free weekly bike rides, nature hikes, park stewardship events and guided paddles in City parks and greenspaces. The City of Rochester is dedicated to providing equitable access to high-quality parks and DRHS acts as a steward and champion of our City parks, playgrounds, and green spaces. In addition to investments in public services, DRHS also utilizes CDBG funds to make investments in parks infrastructure. During the 2022-23 program year, DRHS, in partnership with the City's Department of Environmental Services, completed capital improvement projects at Bronson Playground, Carter Street R-Center Playground, David Gantt R-Center Playground & Grand Avenue Playground, and continued development of projects at Martin Luther King Jr. Memorial Park and Lower Maplewood Park. The Bronson Park Playground project consisted of the demolition and complete re-design of the playground, basketball court and green space at the site. These upgrades included: (1) the installation of new, state of the art playground equipment; (2) the expansion of the basketball court (to regulation size), and (3) the installation of community amenities including an 'outdoor classroom' space for use by the adjacent library and community center. Additional amenities included additional trees, benches and trash receptacles throughout the park.

CR-10 - Racial and Ethnic composition of families assisted

Describe the families assisted (including the racial and ethnic status of families assisted).

91.520(a)

	CDBG	HOME	ESG	HOPWA
White	3273	206	1494	37

Ethnicity:				
Hispanic	2222	94	804	21
Not Hispanic	7031	292	3971	142

Table 2 – Table of assistance to racial and ethnic populations by source of funds

Narrative

HOME data as collected with the categories *Other multi-racial, Black/African American & White, American Indian/Alaskan Native & White, Asian & White*. However, there is no category for these in the top portion of the chart above, but 27 individuals identified themselves in these categories. As such, there were actually 383 people served by HOME.

ESG data as collected by subrecipients, includes a category for *Multiple Races* and *Client Doesn't Know/Client Refused*. However, there is no category for *Multiple Races* or *Client Doesn't Know/Client Refused* in the top portion of the chart above, but 128 individuals identified themselves as *Multiple Races*, and 8 individuals identified themselves as *Client Doesn't Know/Client Refused* with our subrecipients. As such, there were actually 4,775 people served by ESG.

HOPWA data is collected with *Other - Multi-Racial* as an option and this option is not provided in the table above. Twenty-eight (28) individuals identified as *Other - Multi-Racial*. As a result, there are an additional 28 individuals served that are not included in the top portion of the above chart count, making a total of 163 individuals served under the HOPWA program.

CR-15 - Resources and Investments 91.520(a)

Identify the resources made available

Source of Funds	Source	Resources Made Available	Amount Expended During Program Year
CDBG	public - federal	8,625,063	\$9,837,957.47
HOME	public - federal	2,955,981	\$2,058,088.19
HOPWA	public - federal	1,028,806	\$824,824.74
ESG	public - federal	704,815	\$617,359.19
TOTAL		\$13,314,665	\$13,338,229.59

Table 3 - Resources Made Available

Narrative

The amount expended column data was determined by reviewing all IDIS vouchers for ESG, HOPWA, CDBG, and HOME funds expended between 7/1/2022 and 6/30/2023. In 2020-21, program expenditures for CDBG, ESG, and HOPWA were significantly impacted by the programs launched by the City through the CARES Act. These emergency programs assisted people who were impacted by COVID-19. Due to the emergency nature of the programs and needs of the community, these CARES Act programs were at times prioritized over the City's existing, non-emergency program operations and funding. In 2021-22, focus returned to the spending of regular HUD funds and the City caught up with the backlog. 2022-23 spending totals remained just slightly higher than normal, but overall the financial information shows that the City is returning to business as usual.

Please note: CARES Act funding, expenses, and accomplishments are not reflected in the above chart or elsewhere in the main CAPER document, with the exception of HOPWA-CV. A separate attachment is included at the end of this CAPER with a full account of the CARES act spending and outcomes.

Leveraging

Explain how federal funds leveraged additional resources (private, state and local funds), including a description of how matching requirements were satisfied, as well as how any publicly owned land or property located within the jurisdiction that were used to address the needs identified in the plan.

The City's HOME program typically leverages significant funding when used for affordable rental housing projects where the City's HOME investment tends to be 3 – 5% of the project's total development costs. Similarly, the City's use of HOME funding to assist low-to-moderate income households to become homeowner's leverages purchase mortgages – whether they are funded/insured with the NYS SONYMA or FHA mortgage programs, or through local, regional or national financial institutions. The City of Rochester was exempted from the HOME Match requirement for the 2022-23 program year due to the City's high poverty rate.

Fiscal Year Summary – HOME Match	
1. Excess match from prior Federal fiscal year	11,299,715
2. Match contributed during current Federal fiscal year	176,381
3. Total match available for current Federal fiscal year (Line 1 plus Line 2)	11,476,116
4. Match liability for current Federal fiscal year	0
5. Excess match carried over to next Federal fiscal year (Line 3 minus Line 4)	11,476,116

CR-20 - Affordable Housing 91.520(b)

Evaluation of the jurisdiction's progress in providing affordable housing, including the number and types of families served, the number of extremely low-income, low-income, moderate-income, and middle-income persons served.

	One-Year Goal	Actual
Number of Homeless households to be provided affordable housing units	42	152
Number of Non-Homeless households to be provided affordable housing units	153	666
Number of Special-Needs households to be provided affordable housing units	193	163
Total	388	981

Table 11 – Number of Households

	One-Year Goal	Actual
Number of households supported through Rental Assistance	235	315
Number of households supported through The Production of New Units	28	174
Number of households supported through Rehab of Existing Units	76	432
Number of households supported through Acquisition of Existing Units	57	60
Total	487	981

Table 11 – Number of Households Supported

Discuss the difference between goals and outcomes and problems encountered in meeting these goals.

HOME figures for households assisted include additional units in the supported development projects the that were not directly supported by the City's HOME funds, but are still long-term regulated affordable housing units financed via Low Income Tax Credit or similar programs, with income limits up to 80% AMI.

The City of Rochester, its community and housing development partners continue to experience a number of challenges that stemmed from the COVID – 19 pandemic that, along with staffing changes

and organizational changes, affected the number of HOME funded activities reported as completed during the 2022-23 fiscal year.

Pandemic related funding through the CARES act and related program administration work-loads continued to be affected, as issues experienced by partner agencies, such as supply chain issues, continued increasing costs for construction materials due to significant inflation, added to the City's challenges, though production planned for the program year was achieved..

The City's Home ownership and rental projects that included either new construction of units, or rehabilitation of units, again continued to experience delays that have happened during the global pandemic, for multiple reasons, affecting many aspects of development projects. HOME Rochester, the City's primary CHDO activity and program, continued to struggle to find available appropriate single-family homes to be rehabilitated for homeownership. While the national and NYS foreclosure moratoriums expired, the primary pipelines for this type of property did not substantially increase the number of homes suitable and available for the program. Additionally, the City of Rochester's property foreclosure actions for the years 2020 and 2021, which were combined and took place in late 2022, did not result in a substantial number of single-family houses to be acquired by the Rochester Land Bank, or the City of Rochester for this type of home ownership program. The city of Rochester continued to experience extremely high levels of demand for tax-foreclosure properties, in addition to private market properties, which contributed to program partners' reduced success to acquire properties for the program, while proving to be much more expensive for those that were able to be acquired.

Rental development projects have continued to experience some construction related delays, with general contractor challenges that tended to relate to ongoing challenges in finding workers to fill job positions, as well as inflation related cost increases in materials.

Rental projects: Four affordable rental housing projects are reported as completed for fiscal year 2022-23. The Pueblo Nuevo I project consists of 75 new units of affordable rental housing, including 11 HOME assisted units. The Zion Hill apartments project is a 45 unit rental community for persons aged 55+, in a 4-story accessible building, and includes 6 HOME assisted units. The Jefferson Wollensack project consists of 2 buildings, one located on Jefferson Avenue and one located on Hudson Avenue, totaling 41 units of affordable rental housing, including 8 HOME assisted units. The St. Bernard's Apartments project includes a total of 160 affordable rental units for seniors, and entailed the rehabilitation of 147 existing units, and the new construction of 13 units. The project includes 11 HOME assisted units. Home ownership program: The home purchase activities completed in 2022-23 were slightly higher than planned. However, the local ongoing sellers' market, with high levels of purchaser competition that contributed to a significant jump in median sales prices has affected many city neighborhoods. Interest and activity remained constant, however.

Rental Assistance - Many people who were served in the 2022-23 program year were still dealing with the economic impacts of COVID-19. Any individuals and families that were served through ESG CARES

Act funding are not counted as beneficiaries in this report. Individuals and families served through HOPWA Cares Act funds are counted as beneficiaries in this report.

Discuss how these outcomes will impact future annual action plans.

The City of Rochester will continue to assess planned vs. actual numbers.

Include the number of extremely low-income, low-income, and moderate-income persons served by each activity where information on income by family size is required to determine the eligibility of the activity.

Number of Households Served	CDBG Actual	HOME Actual
Extremely Low-income	70	180
Low-income	111	119
Moderate-income	96	85
Total	277	384

Table 12 – Number of Households Served

Narrative Information

The numbers in the above chart are numbers showing only affordable housing activities funded from CDBG and HOME. HOME figures include additional units in the supported development projects that were not directly supported by the City's HOME funds, but are still long-term regulated affordable housing units under LIHTC or similar programs.

CR-25 - Homeless and Other Special Needs 91.220(d, e); 91.320(d, e); 91.520(c)

Evaluate the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through:

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The City supports outreach activities by participating in local initiatives and directly funding Street Outreach activities through ESG. For the past seven program years, the City has funded Person Centered Housing Options (PCHO) for Street Outreach. They provide outreach, assessment, and intake/case management to unsheltered and sheltered homeless individuals. PCHO and the Rapid Engagement Demonstration (RED) Team identify and engage the unsheltered homeless in the City of Rochester, throughout the City and at known gathering locations. PCHO, The RED Team, the Veteran Administration (VA), Center for Youth Services, and several other local homeless service providers regularly visit soup kitchens, libraries, and public places that unsheltered homeless adults frequent. They also visit places not meant for human habitation where the homeless are known to be, including parks, parking garages, vacant and abandoned structures, and encampments. Youth street outreach workers have a mobile outreach team and an RV, and continue to regularly engage homeless and at-risk youth on the street, at recreational centers, and at other locations that youth frequent. The objective of all of the aforementioned groups is to connect, assess, and link the unsheltered homeless person with housing, services, and other benefits.

Monroe County DHS conducts additional outreach during the "Code Blue" season, or when temperatures fall below 32 degrees. Under State Executive Order, Code Blue requires the DHS provide shelter to any person requesting emergency shelter.

PCHO has worked closely with the Rochester Police Department (RPD), and has provided training to RPD officers on best practices when engaging with homeless individuals. Additionally, the RPD has dedicated new staff to help address the needs of unsheltered homeless persons. That team works closely with all outreach providers, and all stakeholders collaborate to ensure unhoused persons get the services and follow up they require. The RPD has been given information on the wide range of community resources available to them and to any homeless individuals they might encounter, and is using best practices to develop responsive, adequate, and appropriate protocol to help with encampments. In addition, an actual police protocol procedure document was developed collaboratively with PCHO, Monroe County and City staff from RPD, Security, Neighborhood Service Center and the Housing office. While many of the protocols were in use informally, the document codified procedures and was able to be distributed and be used during training sessions.

Reaching out to homeless persons cont. `

The City of Rochester undertakes several actions to prevent homelessness. During the reporting period, specific preventive assistance included delinquent rental and utility payment assistance, security deposit payments, and legal services for low and low-mod income households facing eviction. Tenant accountability training and eviction prevention services were also provided. The Housing Council at

Pathstone provides foreclosure prevention services. The counseling and resolution service process includes household budget and income analysis as well as negotiation with mortgage lenders and other parties to arrive at appropriate resolutions. Resolutions include refinancing, negotiated repayments and sale. Legal services provided by the Empire Justice Center make mandated representation at settlement hearings and litigation possible. In addition to the City ESG funding used for the outreach activities through PCHO, the City is committed to supporting collaborative efforts to address the unsheltered homeless population. Coordination with service providers is crucial to engaging this population and moving them to permanent housing. The City participates with the Monroe County Department of Human Services, homeless service providers, the faith community and community volunteers on the Chronically Homeless Workgroup which meets monthly. The case conference portion of these meetings gives outreach teams, essential service providers, and emergency services an opportunity to discuss where the hardest to engage persons are currently living, and to develop strategies and work plans to move unhoused and chronically homeless persons towards more stable housing situations. This often includes helping the homeless person(s) secure documentation and identification, connecting them with essential services, and placing them on the prioritization list for permanent supportive housing programs. The second half of the meeting provides stakeholders with a forum to discuss current efforts of the outreach providers, identify current challenges faced by those who engage and attempt to house chronically homeless persons, and share information on community resources that are available to the unsheltered population.

Addressing the emergency shelter and transitional housing needs of homeless persons

The City takes several actions to address the needs of the homeless, specifically with respect to their emergency shelter and transitional housing needs. The primary funding sources are the federal Emergency Solutions Grant Program (ESG) and Housing Opportunities for Persons with AIDS (HOPWA) which are administered by the Department of Neighborhood and Business Development, Division of Housing. The City's funding allocations for 2022-23 addressed several eligible program components, but all of the components support emergency shelter or transitional housing needs of homeless persons in some fashion. The ESG Program provides homeless persons with basic shelter and essential supportive services, and connects unhoused persons with emergency or transitional housing via the outreach component. ESG can be used to support emergency shelters by funding operational costs, including for staff, such as case management. ESG can also fund homeless prevention and rapid rehousing programs, which provide assistance to persons at risk of homelessness and those who are literally homeless, often due to eviction, foreclosure, or unsafe or unaffordable living situations.

The ESG program components funded in 2022-23 include; Street Outreach (including Coordinated Entry), Emergency Shelter Operations, Rapid Re-Housing, and Homelessness Prevention. A maximum of 60% of the City's annual ESG allocation goes to Street Outreach/Coordinated Entry and Shelter

Operations. Funding requests for shelter operations far exceed the 60% maximum and the funding requests for other program types on an annual basis. The City supports the emergency shelter and transitional housing needs of homeless persons in numerous ways; by providing direct funding for shelter operations including staffing, overhead, and essential services. The City funds the Coordinated Entry system, which helps ensure that those who are the most vulnerable are prioritized for permanent supportive and rapid re-housing programs. Coordinated Entry uses the VI-SPDAT to assess a person's current needs and degree of housing instability. The VI-SPDAT scoring gives housing providers, case managers, and prospective tenants a better understanding of what level of care and type of housing/supports are needed, and assists them in accessing the most appropriate housing available. Efficient implementation of this list and the coordinated entry system reduces the amount of time a person remains homeless while connecting the highest need persons with appropriate resources. The City also participates in the Coordinated Entry Oversight Committee, which continuously monitors the Coordinated Entry process to ensure high standards are being met, review and revise Coordinated Entry policies and procedures, provides Coordinated Entry training to providers and educates the community on the process. Its most recent efforts have been the formation of a Landlord Engagement Workgroup that is working on recruiting landlords with available units to increase the inventory of units available to PSH and RRH programs.

Addressing the emergency shelter and transitional housing needs of homeless persons cont. 1

The City's funding and oversight of homelessness prevention and rapid-rehousing programs offers the homeless (or those at-risk of homelessness) population with resources to divert people from the homeless system, prevent or reduce episodes of homelessness, and support housing stability. The City's Homelessness Prevention program provides short term case management and funding for rental arrears, security deposits, first month's rent, and utility arrears/deposits to eligible households to maintain and/or regain stability in their current housing. The prevention programming also diverts households away from shelter stays, keeping shelter beds free for those who are not eligible for these same prevention resources. The Rapid Rehousing program utilizes Coordinated Entry and the prioritization list to help homeless households secure more stable, permanent housing and remain stable in housing. This helps households that have recently become homeless with their housing emergency, while reducing the length of stay in shelter, ultimately making homeless episodes as brief as possible.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: likely to become homeless after being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); and, receiving assistance from public or private agencies that

address housing, health, social services, employment, education, or youth needs

Youth being discharged from foster care or other institutional settings typically return to their family of origin or another responsible family member or adult. When no such adult can be located, the youth is placed in a community program specifically designed to prepare youth for independent living, such as The Villa of Hope or Hillside Children's Center. It is rare that a youth enters the homeless system directly from foster care. Shelters have been instructed to immediately contact the Monroe County Department of Human Services to report the failed discharge plan if a youth is attempting to access homeless services directly from foster care. Youth entering the homeless system are directed first to the Center for Youth for assessment. The youth is then connected to a caseworker who attempts to re-unite the youth with his/her family or other responsible adult and link him/her to appropriate services. If such a re-uniting is not possible, the youth is referred again to a community program that prepares youth to transition to independent living.

Hospitals have been encouraged to not discharge people with no available housing after hours or weekends so that they can first go to MCDHS for assessment and placement into a shelter that can best meet their needs. When this is not possible or patient leaves against medical advice, hospital social work staff have been provided with information on local emergency shelters (e.g., physical layouts, staffing, hours open) so a referral is made to the shelter that can best meet the person's needs. Hospital staff calls the shelter to confirm a bed is available, any required follow-up care is communicated to shelter staff, and the patient is provided with a sufficient supply of medication. A partnership between the YWCA and the University of Rochester Strong Health provides enhanced shelter services for persons being discharged from Strong Memorial Hospital. The goal is to prevent re-hospitalization, link to mainstream benefits and access permanent housing as quickly as possible.

Helping low-income individuals and families avoid becoming homeless cont. 1

Inpatient facilities licensed or operated by the NYSOMH and NYSOASAS are encouraged to refer individuals to housing consistent with the level of care required by the patient and to not discharge patients until a comprehensive discharge plan is in place. Prior to discharge, individuals in need of supervised housing, and who agree to a referral, are referred to the Monroe County Single Point of Access (SPOA). The SPOA facilitates housing assistance for eligible individuals and connects persons to mental health care coordination services. Through HSN, the CoC will continue to educate stakeholders about the primary providers of licensed mental health residential beds (DePaul Community Services, East House, Housing Options Made Easy, Rochester Psychiatric Center), intensive case management programs (Strong Memorial Hospital, Rochester General Health System, Unity Health System), and care coordination services (ACT Team, Project Link, MICA Net). Ex-offenders are most frequently discharged to their families or to independent living under the supervision of parole. New York State Parole has

contracts with several community agencies to place ex-offenders when no other housing can be located (e.g., Salvation Army Adult Rehabilitation Center, Grace House, and DuBois Residential Program). Spiritus Christi Prison Outreach (SCPO) utilizes ESG funding to provide emergency and transitional housing for the re-entry population. SCPO also provides PSH for the re-entry population and Delphi Rising provides RRH using CoC funding. The CoC Team and the Monroe County Re-Entry Task Force will continue to work closely together, utilizing common members, to assist ex-offenders to successfully transition back into the community. Linking ex-offenders to mainstream resources will reduce the number of ex-offenders from re-entering the homeless system and returning to the criminal justice system. The Veterans Administration (VA) and the Veterans Outreach Center (VOC) will continue to exclusively serve veterans in the CoC geography. The VA and RHA are partners for the HUD VASH program and have developed the local VASH referral/application process and coordinated support services. The VA also partners with two Salvation Army programs-Booth Haven and Safe Haven-that have beds for veterans through the Grant and Per Diem program. Soldier ON has been awarded a SSVF grant to provide prevention and rapid re-housing services to veterans and their families in Monroe County, a programs previously administrated by VOC. The VOC and the VA will continue to operate programs for veterans returning from Iraq and Afghanistan to welcome them home and link them with employment and other mainstream resources to secure and stabilize their income. The YWCA has a MOU with the VOC to provide services to female veterans.

Helping low-income individuals and families avoid becoming homeless cont. 2

To reduce the time in ES or TH, the CoC has been following a Housing First approach, which has resulted in eliminating pre-conditions (e.g., sobriety, minimum income threshold, pending documentation) that were previously barriers to accessing housing. Adopting Harm Reduction strategies, part of the Housing First model, also reduces terminations from permanent housing due to relapse, non-compliance with medications, etc. In addition, ESG funds have been used for rapid rehousing efforts, especially for families, to move them quickly to PH and reduce length of stay in shelter and prevent future episodes of homelessness. Data on the length of time that homeless individuals and families spend in CoC and ESG-funded ES, TH, and SH programs is collected in HMIS and is used to track changes over time. Over 78 community agencies in the HSN, where members are educated on best practices and tools that can be used to reduce the length of time individuals stay homeless. To reduce the extent to which individuals and families leaving homelessness experience additional homeless episodes, the CoC will utilize prevention, diversion, and short-term rental assistance, and arrears payments. The Monroe County DHS provides diversion/prevention assistance to assist those at risk of homelessness with payments for rent arrears, back taxes, mortgage payments, auto repairs, and tools/uniforms for jobs. Returns to homelessness are also decreased as the result of less stringent compliance demands for participants, automatic renewals of leases, and ensuring that discharges are in accordance with fair housing requirements. Data in HMIS is used to determine if and when individuals and families leaving TH, RRH, and PSH experience another episode of homelessness in those cases where either they exit to homelessness or they exit to permanent housing, but subsequently re-enter the homeless system in the

CoC geography. To improve the housing stability of persons in permanent supportive housing, the CoC will utilize the Coordinated Entry System to insure that households are directed to the housing and services that will best meet the needs of that household. Special attention is given to increasing access to mainstream supportive services and enhancing case/care management options to ensure effective integration of homeless housing & community-based services and supports.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

The CoC is investing in rapid rehousing so that those who enter emergency shelters exit quickly. It is providing diversion assistance for those who have a viable alternative to a shelter but require some support. The CoC is currently utilizing a Moving On model that determines housing stability and case management needs of PSH participants. As households become stable in PSH participants that no longer need case management but still need the rent subsidy are supported to transition to other community affordable housing opportunities, including Housing Choice Vouchers, Empire State Supportive Housing (ESSHI) programs and other privately subsidized housing. This frees up PSH units for homeless households that need the intensive case management provided in PSH.

Helping homeless persons cont. 1

The CoC will assist homeless households with children through RRH projects by working with TH projects serving families to help them restructure using a RRH model & by soliciting housing organizations without such programs to create new RRH projects. ESG funding supports a new Rapid Rehousing Partnership (RRP). RRH responds quickly, secures appropriate PH, and uses an array of benefits/supports. The RRP is expanding to serve as a forum for broad implementation of a local RRH system. Training/published tool kits will help agencies to understand the RRH approach and best practices. Efforts to find other funding sources will continue. The average length of time that participants remain in Emergency Shelter (ES) is 47 days, Transitional Housing (TH) 133days, and Permanent Supportive Housing (PSH) 1,625 days proving that PSH model is a best practice for housing stability. To reduce time, the CoC has encouraged PSH providers to adopt a Housing First approach, which has resulted in many eliminating preconditions (e.g., sobriety, minimum income threshold) that are barriers to housing entry. The current average time from entering the homeless system to housing is 39.3 days. ESG funds have been used for rapid rehousing efforts, especially for families, to prevent them from remaining homeless or lengthening an episode of homelessness. Data on length of time that

homeless individuals/families spend in CoC and ESG-funded ES, TH, and SH programs are included in HMIS and will be used to track changes over time. Non-HUD funded projects are represented among the community agencies in the Housing Services Network, where members are educated on best practices and tools that can be used to reduce the length of time individuals stay homeless. To reduce additional homeless episodes, the CoC will utilize prevention, diversion, short-term rental assistance, and arrears payments. The Monroe County DHS Diversion Unit will continue to assist those at risk of homelessness with payment for such costs as back taxes, mortgage payments, auto repairs, and tools/uniforms for jobs. Returns to homelessness are also decreased as the result of less stringent compliance demands for participants, automatic renewals of leases, and ensuring that discharges are in accordance with fair housing requirements. Data in HMIS can be used to determine if and when individuals and families leaving TH, RRH, and PSH experience another episode of homelessness in those cases where either (1) they exit to homelessness or (2) they exit to permanent housing, but subsequently re-enter the homeless system in the CoC geography. The CoC will utilize the local Coordinated Access System to improve the likelihood of placing individuals and families in housing where they would either stay longer or move more quickly to self-sufficiency. Attention will be given to increasing access to mainstream supportive services and enhancing case/care management options to ensure effective integration of homeless housing and community-based services and supports. Agencies will be encouraged to adopt a housing first model, which would allow more participants to remain in their units and reduce the number exiting a project because of alcohol-or drug-related noncompliance.

CR-30 - Public Housing 91.220(h); 91.320(j)

Actions taken to address the needs of public housing

The City of Rochester has continued efforts to coordinate activities with those of the Rochester Housing Authority (RHA). These efforts involve planning and development of new public housing, affordable housing, rehabilitation of existing public housing, resident and program participant self-sufficiency training, home ownership opportunities, and crime prevention and control. RHA continues to provide quality affordable housing and services for its residents. RHA meets regularly with resident councils, resident Board Commissioners, staff and neighborhood associations to address needs and discuss upcoming projects. All suggestions and recommendations from these sources are taken into consideration when preparing the Annual and five-year Capital Improvement plan which outlines capital projects for its Public Housing properties. Due to ever changing conditions, items are prioritized, but can fluctuate within the plan from year to year as priorities change. RHA continues its planning efforts to preserve and increase the inventory of RHA-owned or controlled properties and grow their financial assets. One objective is to transform public housing properties, which have been identified through the HUD Rental Assistance Demonstration (RAD) program and other means as practical, by developing RHA owned properties into mixed-income and multi-family housing, and to develop resources to improve the quality of existing housing stock. RHA plans on accomplishing these goals using property needs assessments, resident input, finalizing and submitting financial information to HUD and identifying and prioritizing additional qualifying properties for transition through RAD. Currently, RHA is working on three RAD projects, and one is combined with an affordable housing project. RHA, along with its development partner, have applied for the NYS HCR Multifamily Finance 9% RFP and were awarded for the redevelopment of its Federal St site and/or new construction of an additional 35 scattered site units. RHA is creating a “pipeline” of projects that will require LIHTC funding. Last year, RHA was awarded a grant as part of the NYS Preservation Opportunity Program (NYS-POP) through NYS and Enterprise, which enables RHA to conduct property needs assessments on properties to identify needs to assist in the prioritization of capital improvement projects. Incorporating stakeholder input into strategies and actions to determine priorities will also be part of this process. This effort is well under way and both physical and environmental assessments are in progress currently with financing and resident engagement opportunities in the works.

RHA continues to utilize its Capital Fund Program awards to address capital needs at its public housing properties. RHA’s Resident Advisory Board along with RHA staff meets annually to develop an annual and comprehensive 5-year plan for capital improvements that address the needs of their properties and the needs of the residents. Resident Advisory Board and staff meet on a regular basis to update and prioritize those needs. RHA meets with property management and maintenance staff quarterly to prioritize and address projects.

Actions taken to encourage public housing residents to become more involved in management and participate in homeownership

RHA is committed to improving communication between management, RHA residents, and program participants, and continues to work with area partners to provide services. RHA will continue to develop and promote RHA's Section 3 program, resident councils, and advisory board. RHA continues to encourage and support residents in organizing and participating in resident councils. There are currently 10 sites that have active resident councils and one jurisdiction-wide resident council that represents all residents. The council presidents are members of the RHA Resident Advisory Board and work with management in developing and revising the 5-year agency plan, annual operating budget, capital fund budgets, and occupancy policies. RHA has two Resident Commissioners on its Board who bring a lot of value to the organization as they routinely go around to sites and speak to residents and bring their concerns and kudos to management and the Board. They are both included in many planning activities throughout the year. RHA has established a Resident Relations Committee that meets monthly to discuss resident concerns and management issues. Collaboration on resident safety initiatives, services available, and additional services needed are all part of discussions.

The Rochester Housing Authority's Resident Services Department has partnered with the City of Rochester's Financial Empowerment Center to provide free financial counseling for residents to equip them with skills in budgeting, money management, and credit repair. This program is exhibiting success as many referrals are being made. RHA's collaboration with organizations such as; NACA, the Housing Council at PathStone, and Neighborworks provide residents with homebuyer counseling, so they gain the tools and resources to make informed home buying decisions.

Actions taken to encourage continued

Resident Services staff provides families with on-going service coordination to help them achieve goals of self-sufficiency. Barriers to the achievement of those goals are identified and addressed through referrals to various community agencies that can help the family to improve or maintain their independence.

RHA's Resident Services department continues to assist with resident needs and actively engage in homeownership opportunities and self-sufficiency program development. On September 12, 2000, HUD published the final rule for the Homeownership Voucher Program adding the homeownership option to the existing tenant-based voucher assistance program. The homeownership option allows public housing authorities to subsidize the family's mortgage instead of rent. The maximum length of assistance is 15 years if the initial mortgage of the home has a term of 20 years or longer. For a mortgage term of fewer than 20 years, the maximum term of assistance is 10 years. There is no maximum assistance term for disabled and elderly families provided they maintain program eligibility. RHA has begun its Section 32 Homeownership program where Public Housing Residents can purchase a Public Housing home. Current residents will be given first option to purchase the home. RHA may use capital funds and/or operating reserves to renovate designated public homeownership plan that will include Section 32 Homeownership homes. Currently, RHA has 7 Public Housing residents who are eligible to purchase their home and RHA is preparing its application that will be submitted to the HUD Special Applications Center (SAC) very soon. RHA has another 23 residents in

various stages of becoming eligible to purchase their Public Housing home.

RHA is developing a post homeownership program to assist families in maintaining their homes and ensuring homeowners that they have somewhere to go for assistance when they need it. RHA intends to increase utilization of homeownership vouchers and increase outreach efforts. RHA's first homeowner closed on their home in 2001. To date, 256 people have purchased their own home, with 17 this past year.

Actions taken to provide assistance to troubled PHAs

The Rochester Housing Authority (RHA) is not a troubled housing authority.

CR-35 - Other Actions 91.220(j)-(k); 91.320(i)-(j)

Actions taken to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment. 91.220 (j); 91.320 (i)

The evolution of the State “Uniform” Code with the adoption of the ICC Codes, has changed dramatically. The Existing Building Code takes into consideration the need to be reasonable when converting old buildings for housing units without compromising safety. We have had a number of old buildings converted to residential dwellings that provide new healthy and safe living environments for a variety of income levels. Some barriers with the redevelopment of older buildings do exist because of environmental abatement costs and other code driven regulations, but with the help of DHCR and other funding streams, we have seen a large uptick in large housing projects both new construction and renovations of existing buildings.

The City of Rochester released a draft an update to the City’s Zoning Code in , developed via its Zoning Alignment Plan (ZAP). The ZAP reflects the community’s vision established in the Rochester 2034 Comprehensive Plan and aligns the zoning code with the zoning map. The structural changes to code and goals of the ZAP include less restrictive design standards, ensuring that the code does not pose a restrictive barrier to the reoccupation of vacant buildings, aligning land use patterns with the transit system to increase density along transit corridors, expanding and diversifying housing choices, increasing economic opportunity, fostering population growth needed to support local businesses, and reducing non-conformities with zoning code. The City continues to monitor the NYS Building Code and local zoning code for adverse effects to the development of affordable housing.

Actions taken to address obstacles to meeting underserved needs. 91.220(k); 91.320(j)

The City focused on meeting the critical needs of vulnerable populations in the 2022-23 program. The COVID-19 pandemic impacted and intensified residents’ housing, financial, and physical needs. Through the HUD funding, the City worked to address those needs, although the \$12.6 million that the City received in CARES Act funding was entirely dedicated to addressing these emergency needs.

The City’s Housing team worked continuously with housing providers, partners, and members of the Continuum of Care to ensure that residents in need of housing assistance, support, shelter, and legal aid received services. Youth programming and services were adapted to be safe and socially distant in-person or to be deployed virtually, as needed, so that youth could continue to benefit from these programs. The City’s business development team continued to work with grassroots organizations and neighborhood leaders to conduct outreach to underserved business owners on the numerous services and products that are offered to support them. The City continued to work with businesses and the underserved to assist in any way possible to retain its current employees. Job creation during the

COVID-19 crisis has been severely impacted during this time as business owners did not have sufficient incoming revenue to create new positions. Many businesses, through the City's assistance, were able to retain positions and help the economy.

Actions taken to reduce lead-based paint hazards. 91.220(k); 91.320(j)

The City continued its efforts to combat childhood lead-poisoning through its Lead Hazard Control Program. The primary goal of the program is to reduce childhood lead poisoning by producing lead-safe affordable housing for families with children under age six. The strategy of the program is to employ primary prevention by addressing lead based paint hazards in housing before a child becomes lead-poisoned. This goal has been expanded to not only address lead hazards, but to also address other environmental health hazards which particularly affect children with asthma. The Lead Hazard Control Program is funded by the U.S. Department of Housing and Urban Development Office of Healthy Homes and Lead Hazard Control.

A total of 86 units were produced at a cost of \$1,803,658. Of this amount, \$375,976 was CDBG and \$1,427,682 was OHHLHC. Due to the Covid-19 pandemic, lead hazard control costs associated with these units is slightly higher than previous years. It should also be noted that the pandemic devastated the construction industry where the City witnessed a 50% decline in contractor participation. The construction industry has since not recovered and the availability of contractors continues to be an ongoing struggle.

Participating Landlords were required to produce a 10% funding match and agree to maintain assisted units as affordable and lead-safe for a period of five years. Each unit that received lead hazard control assistance received a healthy homes supplemental award to address other environmental health hazards. A comprehensive assessment was completed which included an identification and evaluation of 29 health hazards.

Through a partnership with local lead-based paint evaluation firms, the City provided a combined lead-based paint inspection/risk assessment for each unit enrolled in the Lead Hazard Control Program. The risk assessment provides an evaluation of the housing unit and child play areas to determine the presence of lead-based paint and identifies existing lead hazards. The completed report summarizes these findings and includes a remediation plan if needed. A total of 150 lead based paint risk assessments were produced.

Other activities that were completed include a City-wide outreach and education program to raise the awareness of child lead poisoning. Activities included the use of a multitude of media platforms, TV and radio ads, direct training, billboard displays, postcard mailings and informational webinars.

Actions taken to reduce the number of poverty-level families. 91.220(k); 91.320(j)

The City of Rochester, New York ranks #5 for poverty rate among cities in the United States and #2 for child poverty rate. The City is a partner organization of the Rochester Monroe Anti-Poverty Initiative (RMAPI), which uses an approach known as Collective Impact whereby community members and

stakeholders collectively define complex problems leading to poverty and create a shared vision to address the problems and bring about systemic changes. Non-profit organizations and community members have come together to collectively advocate for policies that will be more responsive to the needs of people impacted by poverty. RMAPI continues work at decreasing poverty rates in Rochester by addressing the root causes of poverty. Through Collective Impact, RMAPI breaks down structural racism, encourages employers to commit to wage enhancement and wage equity, promotes engagement among service providers to develop more streamlined processes and more accessible and affordable basic needs, and engages the community in the cause by providing toolkits for individuals to contact lawmakers or post on social media to promote the advancement of these priorities.

In addition to formally partnering with RMAPI to support data analysis, program design, and impact evaluation, the City of Rochester applies funding to other programs to reduce the burden of families living in poverty. CDBG-CV funding was utilized to fund the Mayor's Office of Community Wealth Building (OCWB) initiative of financial empowerment counseling to families. Applying a racial equity lens to all of its activities, OCWB is the lead partner on the City's Race, Equity, and Leadership (REAL) Initiative which aims to address inequities identified in regional workforce planning, grant making, community engagement, and media relations. Under the REAL initiative, OCWB collaborates with critical partners including the Rochester City Council, Greater Rochester Chamber of Commerce, and St. Joseph Neighborhood in full support and alignment with RMAPI's guiding principles. Collectively, these and other activities enjoin the creation of inclusive economic and community development through the democratic ownership of assets and opportunities to build intergenerational wealth within historically disenfranchised communities. These efforts transpire across individual, family, group, institutional, and regional levels. The City of Rochester also has many long running programs and services which are aimed at impacting issues of poverty, including housing programs aimed at ensuring access to quality affordable housing, neighborhood service centers which foster neighborhood community group activities and mitigate issues of vacancy and blight, and recreation centers and libraries that provide supplemental educational opportunities and safe healthy environments for families.

As an outgrowth of these collaborative efforts, the City launched the Mayor's Office of Community Wealth Building in January 2018 with the goal of ensuring that everyday Rochesterians are not left behind in Rochester's recovery. Community Wealth Building is an intentionally inclusive process of collaboration among a broad array of stakeholders focused on advancing community-centered policies, programs, initiatives, and systems. OCWB's efforts to launch financial empowerment centers in fall 2019 focuses on safe banking access, debt alleviation, access to credit, and savings among residents. Additionally, the office's city accelerator initiative garnered insights from women and minority-owned small businesses via surveying and four focus groups to inform the establishment of a robust entrepreneurial ecosystem to connect new and existing ventures to regional services and track operational effectiveness across the network. Applying a racial equity lens to all of its activities, OCWB is the lead partner on the City's Race, Equity, and Leadership (REAL) Initiative which aims to address inequities identified in regional workforce planning, grantmaking, community engagement, and media relations. Under the REAL initiative, OCWB collaborates with critical partners including the Rochester City Council, Greater Rochester Chamber of Commerce, and St. Joseph Neighborhood in full support and

alignment with RMAPs guiding principles. Collectively, these and other activities enjoin the creation of inclusive economic and community development through the democratic ownership of assets and opportunities to build intergenerational wealth within historically disenfranchised communities. These efforts transpire across individual, family, group, institutional, and regional levels.

Actions taken to develop institutional structure. 91.220(k); 91.320(j)

In order to provide greater clarity regarding planning functions and to emphasize the importance of long-range planning in Rochester, the City created a Planning Office in 2017. That office led the development of a new Citywide Housing Market Study in 2018, and a new comprehensive plan, *Rochester 2034*, which was adopted unanimously by City Council in November 2019. The plan was developed based on intensive community engagement and input from a wide variety of stakeholders. These documents, along with the City's longstanding Housing Policy, adopted in 2008, inform the city's housing programs, strategies, initiatives, and investments.

In early 2020, the Planning Office lead development of a new Analysis of Impediments to Fair Housing Choice (AI), which highlights issues and recommended actions to advance fair housing choices for city residents, and a new 5-Year Consolidated Plan to inform investment of the City's HUD allocation dollars (CDBG, HOME, ESG, HOPWA) for the 2020-2024 program years.

The City also works closely with nonprofit housing and social service providers to implement and continuously improve its many housing and community development programs.

In 2022-23 the City continued to centralize the overarching HUD regulatory compliance functions in the Commissioner's Office of the Department of Neighborhood and Business Development. Additional staffing was allocated in 2021-22 after it was determined that the prior 1 staff position was not sufficient. This included adding a full-time management level position to work with the program coordinator position, and bringing on a part-time individual with extensive prior experience working with the HUD programs. Program specific compliance, reporting, and record-keeping is still handled by program managers distributed through other areas of the department and other departments.

Actions taken to enhance coordination between public and private housing and social service agencies. 91.220(k); 91.320(j)

The City continuously meets with local housing partners. We also maintain a close partnership with Monroe County and Rochester Housing Authority.

Identify actions taken to overcome the effects of any impediments identified in the jurisdictions analysis of impediments to fair housing choice. 91.520(a)

In 2020, the City of Rochester engaged Mullin and Lonergan Associates to develop a new Analysis of Impediments of Fair Housing Choice (AI). The prior AI had been developed in 2015. Unfortunately, the

2020 AI shows the persistence of a number of longstanding issues related to fair housing choice and opportunity in the City of Rochester. For example:

- More than one-third of the City's census tracts (30 of 88) are classified as racially or ethnically concentrated areas of poverty (R/ECAPs).
- R/ECAPs scored "lowest" or "lower" in an analysis of access to opportunity, and analysis found that these areas also align with the areas identified as "low demand" in the 2018 Citywide Housing Market Study.
- An analysis of Home Mortgage Disclosure Act (HMDA) lending data found that while the overall approval rate for applicants in Monroe County (outside the city) was 84%, the approval rate citywide was only 70%, only 64% for Hispanic or Latino city applicants were approved, and only 55% of Black or African American city applicants were approved.

Despite these issues, a public policy analysis in the 2020 AI found that the "geographical distribution of the City's investments using federal and local funds are consistent with affirmatively furthering fair housing choice" for a range of programs, including rehab, homebuyer services, and affordable and supportive housing development.

More and better work is still needed, however. The 2020 AI includes a Fair Housing Action Plan that identified four impediments to fair housing choice in Rochester and 12 recommended actions that the City and community partners should take over the next five years.

The COVID-19 pandemic has affected all aspects of the City's actions related to Fair Housing, with many relief activities and programs providing resources to assist those affected. Related moratoria on housing evictions and foreclosure actions, which in the City of Rochester disproportionately affect low income and minority populations. The City of Rochester's housing related services for 2022-23 remained focused on immediate assistance to residents as they continued to face ongoing challenges brought on by the pandemic, dedicated toward stabilizing housing situations and accessing available resources.

Three of the recommended actions that were identified for completion in the short term (by the end of 2021 Program Year), have needed to be further rescheduled due to ongoing activities related to the COVID -19 pandemic, and ongoing redesign of the City's website, and are now identified to be completed by the end of the 2022 Program Year:

- Develop a new prominent, easy-to-find webpage with fair housing information on the City's website.
- Make the City's fair housing webpage accessible for persons who are visually impaired and translate it into Spanish.
- Designate a City department/staff liaison for Fair Housing and provide its contact information on the Fair Housing webpage.

CR-40 - Monitoring 91.220 and 91.230

Describe the standards and procedures used to monitor activities carried out in furtherance of the plan and used to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements

The City of Rochester continually monitors the performance of housing and community development activities to assure that they are carried out in accordance with applicable laws and regulations and to ensure that performance goals are achieved. Comprehensive planning requirements and overarching regulatory compliance monitoring is overseen by staff in the Commissioner's Office in the Department of Neighborhood and Business Development (NBD). Program specific compliance, reporting, and recordkeeping is handled by program managers disbursed throughout other units of NBD, as well as other City departments. For some program areas subrecipients and contractors are utilized to deliver services and projects, and program managers are responsible for monitoring and enforcing HUD requirements for those activities. All subrecipient invoice documentation is reviewed by both program managers and Grants Accounting prior to processing any payments. All program delivery or program administration staff complete payroll certifications or time distribution forms certifying the time spent working on the grant-funded programs which are then reviewed by City Grants Accounting prior to any reimbursement draws.

Citizen Participation Plan 91.105(d); 91.115(d)

Describe the efforts to provide citizens with reasonable notice and an opportunity to comment on performance reports.

Our customers had an opportunity to comment on the **CAPER during the 15-day public comment period running from August 30- September 14, 2023**. A public notice was published online, emailed to the City's HUD citizen participation email listserve, and sent to news outlets. The report was available for review at various City locations, including City Hall, and online.

CR-45 - CDBG 91.520(c)

Specify the nature of, and reasons for, any changes in the jurisdiction's program objectives and indications of how the jurisdiction would change its programs as a result of its experiences.

The City did not make any significant changes to its program objectives.

Does this Jurisdiction have any open Brownfields Economic Development Initiative (BEDI) grants?

No

[BEDI grantees] Describe accomplishments and program outcomes during the last year.

CR-50 - HOME 91.520(d)

Include the results of on-site inspections of affordable rental housing assisted under the program to determine compliance with housing codes and other applicable regulations

Please list those projects that should have been inspected on-site this program year based upon the schedule in §92.504(d). Indicate which of these were inspected and a summary of issues that were detected during the inspection. For those that were not inspected, please indicate the reason and how you will remedy the situation.

The ongoing COVID-19 pandemic affected the City of Rochester's ability to undertake on-site inspections for all HOME assisted rental projects during its 2022-23 fiscal year. However, inspections were made at a number HOME assisted rental housing projects or units.

The City coordinated with respective property managers to schedule needed inspections, while being sensitive to the property managers' guidelines related to protecting the health and safety of residents and staff. HOME compliance inspections were undertaken at a number of projects, the vast majority of which found HOME assisted units to be in conditions meeting or exceeding standards. Projects inspected include: Erie Harbor, Fight Village, Harris Park Apartments, VOC/Liberty Landing, , Charlotte Square III, Carriage Factory, Frederick Douglass, Voters Block, Warfield Square, , El Camino Estates I & II, Anthony Square, Pinnacle Place, Wedgepoint, Holy Rosary, Near Westside Rental, Olean Revitalization, Michelsen Mills, Mills at High Falls I & II, Son House and 24-28 Quincy Street. Additionally, a number of HOME Assisted rental projects were inspected for and received new Certificates of Occupancy (CofO's) during 2022-23, documenting that all units in the project meet or exceed NYS occupancy standards. Projects receiving CofO's include: E L Tower, Susan B Anthony Apartments, St Michaels's II, and Marketview Heights.

Moving forward, the City continues to improve its ongoing HOME inspection process to perform inspections annually for larger HOME Assisted rental projects, and explore opportunities to integrate the inspection process into the City's new property information system, which is being phased in beginning in 2023.

Provide an assessment of the jurisdiction's affirmative marketing actions for HOME units. 92.351(b)

All of the City's affordable housing projects require an affirmative marketing plan. Consistently, our projects are marketed to households that would not typically have access to new units. This includes units marketed in neighborhood newsletters, and advertised on radio that would reach minority and other underserved markets, in neighborhoods where projects are located, and to populations identified as least likely to apply. Populations least likely to apply may include those whose race or ethnicities are noted as not currently residing in the project area, based upon available census data.

Refer to IDIS reports to describe the amount and use of program income for projects, including the number of projects and owner and tenant characteristics

The City of Rochester carried a Program Income balance of \$174,140.85 into 2022-23 and receipted \$186,890.40 in program income in the 2022-23 program year. \$5,000.45 of program income funds were expended in the 2022-23 program year. The City ended with a balance of \$356,030.80, but this is expected to be utilized towards several large affordable housing development projects in 2023-24.

Describe other actions taken to foster and maintain affordable housing. 91.220(k) (STATES ONLY: Including the coordination of LIHTC with the development of affordable housing). 91.320(j)

The City of Rochester was largely developed prior to 1940 and has the second oldest housing stock in the nation among cities of its size. As such, many of the opportunities to create affordable housing stock consist of rehabilitation of existing housing stock. The City has long recognized that the NYS Fire Prevention and Building Code posed barriers to the development of affordable housing when existing structures are rehabilitated or adaptively re-used. The code was developed as a “new construction” standard and makes it very costly, if not impossible, to effectively redevelop existing structures. Projects also experience significant delays because they must obtain variances from the state code. The City has worked successfully with the State of New York to address this issue by replacing the former code with the NYS Enhanced International Building Code. The City has continued to monitor the NYS Building Code and the new local zoning code for adverse effects to the development of affordable housing. The HOME allocation has been utilized for affordable housing development and rehabilitation as well as homeownership financial assistance. HOME funds are not used to provide tenant-based rental assistance. The City allocates HOME funding to a variety of rental activities designed to prioritize maintaining and increasing the supply of safe, adequate rental housing that is affordable to households below 60% of the area median family income while deconcentrating poverty and supporting diverse neighborhoods.

St. Bernards is an affordable rental housing project for seniors aged 55 and older that was completed, and entails the rehabilitation of 147 existing units and new construction of 13 units, for a total of 160 units. Units are affordable to households at 40%, 50% and 60% MFI. The project will include 14 studios, 120 one-bedroom units and 26 two-bedroom units, and includes 11 HOME assisted units. Total development cost is \$27.8 million, and the City is providing a \$600,000 HOME loan for construction and permanent financing, and a PILOT. Jefferson Wollensak is a completed affordable rental housing project that includes the adaptive repurposing of an historic local industrial building on Hudson Avenue in northeast Rochester that is included in the National Register of Historic Places, and new construction on Jefferson Avenue in southwest Rochester. The project includes 41 units serving households with income at or below 50% MFI, with 7 units set aside for households with intellectual or developmental disabilities and 8 HOME-assisted units. Supportive services are provided by the New York State Office of Persons with Developmental Disabilities. The total development cost is \$13.9 million and the City provided sale of two parcels of land, a \$300,000 HOME funded loan, and a PILOT for the project. The

Pueblo Nuevo project is now fully complete, and was undertaken in two phases, for a total of 104 units of affordable rental housing (Phase I includes 75 affordable rental units, and Phase II includes 29 affordable units); creation of the El Camino Community Center which will include a community, business and education center; and dedicated community greenspace. Pueblo Nuevo's project scope, size and locations represents a strategic "purpose built" approach to transform this neighborhood by providing needed affordable housing close to public transportation, existing amenities, support services and job opportunities. The project includes a number of sites, most of which are in close proximity to the La Marketa at the International Plaza site on North Clinton Avenue and the nearby El Camino neighborhood area.

The first phase of the completed project, Pueblo Nuevo I, is a supportive and community affordable rental development of 75 units affordable to households with income of up to 50%, 60% and 90% MFI. It includes the adaptive repurposing of a former school building into apartments, the rehabilitation of an existing two-family structure, and new construction consisting of a two-story apartment building and multiple triplex structures. There are 59 one-bedroom units, 2 two-bedroom units and 14 three-bedroom units. The project will serve 27 households at or below 50% MFI, including 19 units set-aside for those with Intellectual/Developmental Disabilities. Additionally, 44 units are affordable to households with income at or below 60% MFI, and four (4) units for households at or below 90% MFI. There are 11 HOME assisted units. Total development cost for Pueblo Nuevo I is \$23.7 million. The City of Rochester has a HOME loan of \$368,000 for construction and permanent financing, and sold City-owned land and provided a Shelter Rent PILOT for the project. The second phase of the project, Pueblo Nuevo II, is also completed. The City of Rochester sold the land upon which the houses were constructed, and provided a Shelter Rent PILOT to assist the project. Pueblo Nuevo II created 29 units of affordable rental housing all targeted to households at or below 50% MFI, on multiple sites near and adjoining Pueblo Nuevo I sites. The Pueblo Nuevo II units added to the transformation of the immediate neighborhood, adding five single family houses and twelve duplexes, all of which are two-bedroom units. Five units are targeted to households with income at or below 30% MFI, and an additional five units benefit from Project Based Housing Choice Vouchers from the Rochester Housing Authority. Total development cost is \$13 million. The completed Zion Hill Apartments project includes 45 units of affordable rental housing (including 6 HOME assisted units) for households aged 55+ and is located on Dr. Samuel McCree Way in the City's southwest, serving households at or below 50% MFI. The project added much needed affordable rental housing to allow aging residents to continue to live in their home community in proximity to known amenities and neighbors. There are 11 units for households <30% MFI, and 26 units for households <50% MFI, additionally eight(8) units receive Section 8 Project Based Vouchers. Seven (7) units are reserved for frail/elderly tenants that receive supportive services provided by the developer/property manager, Rochester Management, Inc. Total development cost is \$13.5 million.

The L2P Westside project is a scattered site rent-to-own program modeled after a highly successful program in Cleveland, OH. Construction on 41 single-family houses was completed in Fall 2022, without any funding from the City of Rochester. Construction of the project was impacted by a number of pandemic related issues, including supply chain, worker health due to COVID, as well as challenges with

coordination with local utilities for needed service hook-ups necessary to complete and occupy the homes. For the first 15 years the properties will be affordable rental, managed by the owner. In Year 11, the management will begin working with the tenants to ensure they are ready for ownership. Beginning in Year 16, eligible tenants will be offered the opportunity to purchase the property at a discount, to remain affordable to households at or below 60% MFI. The 2- and 3-bedroom homes are in the Southwest quadrant of Rochester, on previously vacant City-owned land which the City sold along with a Shelter Rent PILOT towards the project. Seven of the homes are designed with accommodations for households with mobility concerns, and an additional two are designed to accommodate households with visual impairments. Total development cost for the project is \$12.7 million. Edna Craven Estates (CDS Clifford and Joseph) is a 164-unit affordable rental housing project that included the construction of seven buildings on three adjacent parcels totaling 214,229 square-feet. The project rents are affordable to extremely low-income, very low-income, and low-income households, including eight (8) units with project-based Section 8 vouchers (PBVs). The unit mix is comprised of 37 one-bedroom, 96 two-bedroom, 24 three-bedroom, and five (5) four-bedroom units, including 48 units set-aside for survivors of/those fleeing domestic violence and persons with mental illnesses. The households in the set-aside units will receive on-site supportive services, and will have rental subsidies to ensure they do not pay more than 30% of their income toward rent. Total development cost for the project is \$48.8 million. The City's participation in the project includes the sale of 23 vacant parcels for the development, a \$1,000,000 HOME funded permanent loan, and a Shelter Rent PILOT that will run coterminous with the permanent financing. Construction completed in early Summer 2022 with lease-up continuing into the Fall. It is anticipated that the project will be fully occupied and transition to permanent financing in calendar year 2023.

Two large scale affordable rental projects, each focused on adaptive repurposing of existing buildings, closed on project financing in June 2022. Both, when completed, will contribute additional affordable rental housing communities to the city of Rochester that include supportive units for special needs households. The Tailor Square Mixed-Use Project, entails the redevelopment of the existing Hickey Freeman clothier manufacturing site (approximately 233,000 square feet) at 1155 North Clinton Avenue in northeast Rochester.

As a mixed-income, mixed-use project undertaken by local developer Home Leasing, LLC, the project will provide 134 affordable rental housing units for households aged fifty-five and older and seniors in need of supportive housing, and 77,000 square feet of clothier manufacturing space to be developed for the continued operations of the Hickey Freeman company, which long owned and occupied the site. The original building has over time become outdated and outsized for the company's long-term viability, and this project will retain a locally historic business while creating much needed affordable and supportive housing options for older city residents. The residential buildout will include units for households with income at or below 30% AMI, as well as 43 units for households at or below 50% AME, 23 units for households at or below 60% AMI, and 15 units affordable for households at or below 70% AMI. Eight units will benefit from Section 8 Project Based Vouchers through the Rochester Housing Authority. Forty-five units will be set-aside for permanent supportive housing for frail elders as defined by New York's Empire State Supportive Housing Initiative (ESSHI), with on-site supportive housing

services provided by People, Inc. Total Development cost exceeds \$79.5 million, with the City providing a permanent and construction loan of \$2,300,000 toward the residential development, comprised of \$1,875,000 HOME funds and \$425,000 of local funds. There will be 11 HOME assisted units in the project. Construction work began in July 2022, and the project is on schedule, and anticipated to complete construction in late 2024. The City of Rochester is providing a PILOT only for the Canal Street Apartments project, undertaken by East House Corporation, which entails the adaptive reuse and historic rehabilitation of 67-69 Canal Street, a vacant five-story 166,251 square foot building located in the Susan B. Anthony Neighborhood in southwest Rochester. Once completed the development will result in the creation of 123 apartments, 70 of which will be permanent supportive housing units with rental subsidies and on-site supportive services. The units will include studio, one- and two-bedroom units, all of which will be affordable to households at or below 60% of AMI. Seventy units will be affordable at or below 30% and/or 50% AMI, and 53 units will be affordable at or below 60% AMI. The developer, East House will be the service provider for the 70 supportive housing units, which will serve a combination of special needs populations, including 37 units targeting individuals with Serious Mental Illness (SMI) and 25 units targeting individuals with Substance Abuser Disorder (SUD), and eight (8) units targeting the chronically homeless. The project is under construction, with completion anticipated in late 2024.

Flower City Apartments is an affordable rental housing rehabilitation project which includes 150 units at three locations within the City of Rochester. The project includes 83 studios, 54 one-bedrooms, and 13 two-bedroom apartments, all of which were at various states of disrepair. The units were unregulated, or not rent-restricted prior to this initiative, but were considered “naturally affordable”. This project will ensure that these units remain affordable for households with incomes ranging from at or below 30% to 60% MFI. Fifty-six (56) of the 150 units will be set aside for supportive housing. Included in the 56 supportive housing units will be ten (10) units for previously incarcerated individuals, 11 units for individuals with HIV/AIDS, and the other 35 supportive housing units will serve formerly homeless and chronically homeless individuals. All households living in the supportive housing units will receive on-site supportive services and rental subsidies. It is anticipated that the residents will remain in the buildings during construction and move into a newly renovated unit when completed. A Relocation Coordinator was hired to work with the residents to develop individualized, temporary relocation plans to meet their needs during construction. The total development cost is \$18.8 million. The City provided the project with a \$300,000 HOME funded permanent loan, and a 10% Shelter Rent PILOT. The project, which started construction in Spring 2021, has been affected by pandemic related issues including labor challenges, however is anticipated to be completed by the end of 2023. 270 On East is a rental housing development that is part of the revitalization efforts resulting from the City’s Inner Loop East infill project. This 118,450 square foot affordable housing development includes 50 indoor parking spaces and a 14 space surface lot. The project completed construction in spring 2022, and created 112 units of affordable rental housing, including studios, one-, and two-bedroom apartments affordable to a diverse range of incomes, with units targeted to households with incomes at or below 50%, 60%, and 80% of MFI. Fifty-five (55) units are set aside for supportive housing for frail elderly and formerly homeless veterans, all of whom will receive on-site services and rental assistance. The project is in the final stages of lease-up. Total development cost is \$30.5 million. The City sold the parcel for the project,

provided a locally-funded loan of \$1,500,000 for permanent financing, and a Shelter Rent PILOT agreement. It is anticipated that the project will transition to permanent financing during the 2023-24 fiscal year. The Federal Street and Scattered Sites Project involves the building and/or preservation of 53 affordable and workforce units at the Rochester Housing Authority's (RHA's) Federal Street sit and 24 scattered sites located in the surrounding neighborhoods in Southeast and Northeast Rochester, and is a noted component of the community driven Connected Communities Beechwood Neighborhood Comprehensive Plan. The project includes the Rental Assistance Demonstration (RAD) conversion of 51 public housing units to project based voucher supported units (while still managed by RHA), preservation and new construction. Demolition of blighted/ outdated buildings with 16 units on Federal Street will be followed new construction of 18 new units, and demolition and new construction of 4 units on scattered sites, and rehabilitation of the other 31 units. At least 6 of the replacement units will be fully accessible, providing for an increase for this type of necessary housing. The 53 unit project includes 2 bedroom, 3 bedroom, and 4 bedroom units, and will sustain the availability of this type of affordable family housing for a minimum of 30 years. Units will be affordable for households at or below 30%, 50% or 60% MFI. There will be 9 units set aside for households with individuals transitioning from incarceration, with Empire State Supportive Housing Initiative funded supportive services provided by Spiritus Christi Prison Outreach. The project designs will enhance the existing character of the surrounding neighborhoods while applying modern technology to achieve energy efficiency, universal design, and sustainable construction that will meet or exceed requirements for NYSERDA's New Construction-Housing Program 3 standards, and the rehabilitation of units will comply with the 2020 Enterprise Green Communities criteria. closed on project funding and started construction in spring of 2023.

CR-55 - HOPWA 91.520(e)

Identify the number of individuals assisted and the types of assistance provided

Table for report on the one-year goals for the number of households provided housing through the use of HOPWA activities for: short-term rent, mortgage, and utility assistance payments to prevent homelessness of the individual or family; tenant-based rental assistance; and units provided in housing facilities developed, leased, or operated with HOPWA funds.

Number of Households Served Through:	One-year Goal	Actual
Short-term rent, mortgage, and utility assistance to prevent homelessness of the individual or family	30	15
Tenant-based rental assistance	103	98
Units provided in permanent housing facilities developed, leased, or operated with HOPWA funds	0	0
Units provided in transitional short-term housing facilities developed, leased, or operated with HOPWA funds	0	0
Total	133	113

Table 13 – HOPWA Number of Households Served

Narrative

This chart shows that 113 households were served through HOPWA. However, this chart does not capture that an additional 67 households were served through HOPWA permanent housing placement service and supportive activities, bringing the total number of households served by HOPWA to 180. There were 14 duplicate households served, bringing the adjusted total to 166. Please see separate 2022-23 HOPWA CAPER report attachment for further detail.

CR-58 – Section 3

Identify the number of individuals assisted and the types of assistance provided

Total Labor Hours	CDBG	HOME	ESG	HOPWA	HTF
Total Number of Activities	4	0	0	0	0
Total Labor Hours	6337.5				
Total Section 3 Worker Hours	19				
Total Targeted Section 3 Worker Hours	19				

Table 14 – Total Labor Hours

Qualitative Efforts - Number of Activities by Program	CDBG	HOME	ESG	HOPWA	HTF
Outreach efforts to generate job applicants who are Public Housing Targeted Workers					
Outreach efforts to generate job applicants who are Other Funding Targeted Workers.					
Direct, on-the job training (including apprenticeships).	2				
Indirect training such as arranging for, contracting for, or paying tuition for, off-site training.					
Technical assistance to help Section 3 workers compete for jobs (e.g., resume assistance, coaching).	1				
Outreach efforts to identify and secure bids from Section 3 business concerns.					
Technical assistance to help Section 3 business concerns understand and bid on contracts.					
Division of contracts into smaller jobs to facilitate participation by Section 3 business concerns.					
Provided or connected residents with assistance in seeking employment including: drafting resumes, preparing for interviews, finding job opportunities, connecting residents to job placement services.					
Held one or more job fairs.					
Provided or connected residents with supportive services that can provide direct services or referrals.					
Provided or connected residents with supportive services that provide one or more of the following: work readiness health screenings, interview clothing, uniforms, test fees, transportation.					
Assisted residents with finding child care.					
Assisted residents to apply for, or attend community college or a four year educational institution.					
Assisted residents to apply for, or attend vocational/technical training.					
Assisted residents to obtain financial literacy training and/or coaching.					
Bonding assistance, guaranties, or other efforts to support viable bids from Section 3 business concerns.					
Provided or connected residents with training on computer use or online technologies.					
Promoting the use of a business registry designed to create opportunities for disadvantaged and small businesses.	3				
Outreach, engagement, or referrals with the state one-stop system, as designed in Section 121(e)(2) of the Workforce Innovation and Opportunity Act.					
Other.					

Table 15 – Qualitative Efforts - Number of Activities by Program

Narrative

In line with the publication of the Section 3 Final Rule and Benchmark Notice, the City of Rochester began reporting Section 3 compliance data in IDIS within the applicable reporting cycles for contracts with a commitment date on or after July 1, 2021.

ESG- To Be Completed in SAGE

Note: this replaces CR-60, CR-65, CR-70, CR-75

Project Outcomes

From the Action Plan that covered ESG for this reporting period copy and paste or retype the information in Question 5 on screen AP-90: “Describe performance standards for evaluating ESG.”

The City utilizes the Integrated Disbursement and Information System (IDIS) to document program progress and monitor program performance on an ongoing basis. The City requires all ESG sub-recipients to enter data into HMIS as required by HUD. A Consolidated Annual Performance and Evaluation Report (CAPER) is prepared annually by the City. Each ESG funded subrecipient now uses HMIS to run their own CAPER report and download it directly into SAGE for the City and County to produce the combined CAPER. The CoC will assist the project as needed to do the submission. The consolidated CAPER contains a summary of resources and programmatic accomplishments, the status of actions taken in concert with the CoC to implement the strategies contained in the Consolidated Plan, and evaluation of progress made in addressing identified priority needs and objectives.

Performance Standards are in alignment with the HUD required measures including reducing the duration of homelessness; reducing recidivism; reducing the number of people who become homeless; increasing employment and income; and stability in permanent housing. Additional local standards have also been established and are included in the community written standards; occupancy rate, number of days to respond to referrals, number of days from program entry to move-in date into RRH or PSH, etc.

These standards have been confirmed/reconfirmed by City, County, and CoC for program year 2022-23, and each organization will be expected to keep accurate and timely data and meet these goals. Each component type has different outcome/performance measures, but they are related to the goals stated in the previous question.

Emergency Shelter

- Average length of stay is less than 30 days
- 60% of participants exit with a successful housing outcome
- 50% of participants exit to permanent housing
- Less than 20% of participants exit to an unknown location
- 50% of participants exit with/linked to cash income
- 60% of participants exit with/linked to non-cash resources
- 90% average occupancy rate

Street Outreach

- 30% of all participants engaged will exit to permanent housing destinations
- 30% of all participants engaged will have successful exits from the program
- 70% or more of adult participants will have non-cash benefits
- 60% or more of adult participants will have income from sources other than employment

- 15% or more of adult participants will have income from employment
- 80% of participants will not return to homelessness within two years
- Average time from contact to engagement is 60 days
 - Contact: Outreach worker meets client but may not collect any information
 - Engagement: Client completes intake and is entered into HMIS
- Average time from engagement to successful exit from program is 45 days

Rapid Rehousing and Homeless Prevention

- 92% of all participants will remain stable in RRH or exit to other permanent housing destinations
- 64% or more of adult participants will have non-cash benefits
- 64% or more of adult participants will have income from sources other than employment
- 20% or more of adult participants increase income from sources other than employment
- 20% or more of adult participants will have income from employment
- 20% or more of adult participants will increase income from employment
- 92% of participants do not return to homelessness within a one-year period after exit from RRH
- 85% of participants do not return to homelessness within a two-year period after exit from RRH
- Average time from enrollment to moving to permanent housing is thirty (30) days
 - Persons are entered into RRH programs upon completing intake unless person is not eligible based on information obtained at intake (i.e. not homeless, over income, etc.)
- 95% Utilization rate based on amount of rental assistance that is expended annually

Briefly describe how you met the performance standards identified in A-90 this program year. If they are not measurable as written type in N/A as the answer.

2022-23 All grantees reported on the necessary data points. Up until 2022-23, the performance measures were relied upon to ensure programs are setting goals that move our community towards a more stable housing environment. We expect each agency to make a best effort to attain each of the goals pertinent to their programs, but measures for some programs change due to population (youths, DV, etc.) and economic trends. Overall, the City expects the entire portfolio of programs/projects to meet these goals as well. Moving forward, any projects that do not meet performance measures will be expected to develop a plan to help them attain success in the future. These performance measures will be available to the ESG Proposal Review Committee, and will be part of the review committee's scoring as well (occurs once per year in early Spring). Except in rare circumstances, not meeting a performance measure should not determine if a program is or isn't funded, but it may point to individual aspects of their program that need tweaking, or it may lead to a better understanding of a larger problem facing our community or a specific population of persons.

Overall, the City's ESG funded partners performed well in 2022-23. The majority of programs met their performance measures, and, for those that did not, City staff are working with those agencies to determine how to ensure they do meet them this year.

Briefly describe what you did not meet and why.

Any performance measures/standards that were not met are to be addressed through planning and program changes. Most shortfalls in program year 2022-23 are due to the increased challenge related to securing affordable housing. For example, for Emergency Shelter programs, only 34% of persons served exited to positive housing destinations (the numbers are similar – 33% - in Street Outreach), but the performance standard is that at least 60% of those served achieve this. This is largely due to the low supply of affordable housing options, including permanent supportive housing, and more instability in general throughout the housing industry. As compared to prior years, many more clients are exiting without reporting exit status, and a far greater percentage of those served in shelters are in need of rental assistance. The rental assistance programs have not kept up with demand, and the City is only now starting to feel the impacts of COVID period housing policies. Any other shortcomings within the Shelter Operations program type can be directly tied to the increased strain on the system. The City is working with local partners to increase both the availability of non-congregate emergency shelter beds and permanent supportive housing units and programs.

Another example of the higher stresses on the homeless system and limited availability of affordable housing is with Rapid Rehousing programs, when looking at the length of time between enrollment/intake and a move to permanent housing. The performance standard is 30 days, maximum, but in 2022 the average length of time from project start to move-in was 61 days. For singles, it took an average of 36 days to move into housing, while for families it took 64 days. In years past, programs have managed to adhere to this standard or stay reasonably close to it. The over-subscription on all housing programs and rental housing in general has had negative effects on all performance standards. It should be noted that families are facing more challenges than singles, again largely due to the limited availability of larger units and support programs for larger household sizes. The City will continue to work with partners like the CoC and County to find alternative solutions and address gaps in services and is currently planning for the HOME-ARP funds to help meet these needs. The City is shifted to new measurable performance standards in 2022-23. See more detail above and below.

If your standards were not written as measurable, provide a sample of what you will change them to in the future?

N/A

CARES Act CAPER Attachment- Accomplishments Through 6/30/2023

Via the 2020 Coronavirus Aid, Relief, and Economic Security (CARES) Act, the City of Rochester received additional pandemic-relief grant allocations totaling \$12,697,579 for the CDBG, ESG, and HOPWA grant programs. These funds were only able to support activities that would prevent, prepare for, and respond to the economic and health issues brought on by the COVID-19 pandemic. HUD issued waivers from many normal HUD regulations to help ensure funds could be deployed quickly.

The City staff consulted with community stakeholders to identify the most critical community needs and to inform the development of the plan for how the funds would be used. Key needs identified included small business stabilization assistance, eviction prevention through rent and legal assistance, computer and internet access, and emergency housing repairs. Staff compared these needs to allowable activities to finalize the draft plan. Vital collaboration was maintained with Monroe County to jointly budget ESG-CV funding to address homelessness and rent arrears issues. The City also collaborated with a consortium of non-profit and governmental partners convened by the United Way working on a coordinated community response to the crisis. This consortium informed the development of several of the City's funded programs, including the "Bridging the Digital Divide" initiative, whereby low-income Rochester City School District students without home computers and/or internet access were provided devices during the critical period of remote learning.

The 2019-20 Annual Action Plan was amended to incorporate the CARES act funds for the purposes of tracking and reporting. Due to funding awards being made over several installments, 4 different substantial amendments were made. Per waivers provided by HUD, the original funding plan amendment, and subsequent additions, were each posted for public comment for a 5-day period. 100% of the funds have been allocated to activities.

CARES Act Grant	City of Rochester Allocation	Expended through 6/30/2023	Encumbered Balance as of 7/1/2023	Balance as of 7/1/2023
CDBG-CV	\$7,252,215	\$7,034,160.70	\$107,096.70	\$218,054.30
ESG-CV	\$5,303,335	\$4,449,245.36	\$457,681.31	\$854,089.64
HOPWA-CV	\$142,029	\$138,925.20	\$0	\$3,103.80
TOTAL	\$12,697,579	\$11,622,331.26	\$564,778.01	\$1,075,247.74

As of June 30, 2023, \$11,622,331.26 had been incurred in program expenses to assist businesses; serve meals to seniors; assist families with rent assistance for eviction prevention, legal assistance for eviction and homelessness prevention; prevent foreclosures; assist senior homeowners to age in place more comfortably; repair rental units for 60% AMI renters; help owner-occupants make emergency repairs to their homes; provide laptops to RCSD students; help low income individuals/households with emergency shelter/rapid rehousing/street outreach; and, provide rent assistance and permanent housing assistance to individuals/families living with HIV/AIDS. Over 35,000 households were impacted by these programs.

Additional spending and accomplishment detail by program is provided on the following pages.

CARES Act Funded Projects- Accomplishments and Spending Through June 30, 2023

Program	Funding Type	Budgeted	Funding Drawn Through 6/30/2023	Balance as of 7/1/2023	Outcome Type	# Served Through 6/30/23	COVID-19 Pandemic Health/Economic Issue Mitigated by the Program	Program Accomplishment Narrative
Business Emergency Retention Grants	CDF (local funding)	\$411,135	\$411,135.13	\$(0)	Businesses	215	Social distancing and isolation protocols significantly reduced the revenue for local small businesses, putting them at risk of reducing employment and/or closing. A significant number of businesses were severely impacted by substantial decreases in revenue. It was vitally important to act quickly to retain both businesses and their employees.	The Business Emergency Retention Grant (BERG) was a program generated to assist business owners who struggled to pay everyday unpaid working capital expenses such as rent/mortgage payments, utilities, insurance, inventory and/or payroll, who were experiencing financial hardships due to the COVID 19 Pandemic. A significant number of businesses experienced extreme financial hardships due to COVID 19 shutdowns, which resulted in significant revenue and employment losses. The BERG program was extremely successful in retaining a large number of businesses and their employees during this time. The City's NBD, Business Development Division (BD) set a record for businesses assisted in less than one year. HUD also requested NBD BD assist other communities who may have struggled with CARE's funds, and communicate how our City was so successful.

Program	Funding Type	Budgeted	Funding Drawn Through 6/30/2023	Balance as of 7/1/2023	Outcome Type	# Served Through 6/30/23	COVID-19 Pandemic Health/Economic Issue Mitigated by the Program	Program Accomplishment Narrative
Business Emergency Retention Grants	CDBG-CV	\$2,500,000	\$2,473,766.58	\$26,233	Businesses	449	Social distancing and isolation protocols significantly reduced the revenue for local small businesses, putting them at risk of reducing employment and/or closing. A significant number of businesses were severely impacted by substantial decreases in revenue. It was vitally important to act quickly to retain both businesses and their employees.	The Business Emergency Retention Grant (BERG) was a program generated to assist business owners who struggled to pay everyday unpaid working capital expenses such as rent/mortgage payments, utilities, insurance, inventory and/or payroll, who were experiencing financial hardships due to the COVID 19 Pandemic. Program	Funding Type	Budgeted	Funding Drawn Through 6/30/2023	Balance as of 7/1/2023	Outcome Type	# Served Through 6/30/23	COVID-19 Pandemic Health/Economic Issue Mitigated by the Program	Program Accomplishment Narrative
Restaurant Grant aka Senior Meals	CDBG-CV	\$881,575	\$858,040.15	\$23,535	Senior Households	12696	The elderly were recommended to observe strict isolation protocols as they were at higher risk of adverse health outcomes when contracting COVID-19 virus. This however increased the risk for these households to go hungry or lack proper nutrition. Simultaneously, social distancing and isolation significantly reduced the revenue for local small business restaurants, putting them at risk of reducing employment and/or closing	The City contracted with 211 Lifeline for call center intake services. The program coordinated the delivery of 42,829 meals to 12,696 vulnerable senior households. This helped enable them to remain safely isolated, while ensuring they got adequate nutrition. The program simultaneously helped sustain 32 restaurants though the long period of economic hardship driven by pandemic social distancing requirements.
Eviction Prevention Rent Assistance	CDBG-CV	\$900,000	\$891,236.56	\$8,763	Persons	623	The COVID related financial impact/loss amongst LI (<80%AMI) households was high, and this increased as incomes went down and/or rent burden went up. These programs mitigated the financial losses of tenants and their landlords, and reduced transmissibility by keeping people stably housed.	Early in the pandemic, ESG-CV was the only form of arrears assistance available to the community, but many households were unable to qualify for ESG-CV assistance, largely due to income. The City used CDBG-CV funding to address this need and fill a funding gap, and leveraged the existing system that was in place for ESG-CV arrears assistance. The funding was largely used to provide arrears assistance.

Program	Funding Type	Budgeted	Funding Drawn Through 6/30/2023	Balance as of 7/1/2023	Outcome Type	# Served Through 6/30/23	COVID-19 Pandemic Health/Economic Issue Mitigated by the Program	Program Accomplishment Narrative
Eviction Prevention, Landlord/Tenant	CDBG-CV	\$311,025	\$265,605.05	\$45,420	Households	2943	Risk of homelessness and eviction judgement, typically caused by income issues created from or exacerbated by the pandemic. In addition, many health/safety concerns were raised that the property owner/manager may have been unable or unwilling to correct due to their own pandemic-related issues. Loss of housing increased risk of contracting COVID if household has to go to congregate shelter or stay with friends/family.	Note: #s include hotline tenants + hotline landlords in addition to those directly assisted by the two legal services agencies (Legal Aid Society and Legal Assistance of Western New York). 425 tenant households were assisted by legal services staff to negotiate/advocate with the property owner and/or eviction judges. The other households were provided with immediate information on rights/responsibilities/options regarding their housing situation (on the part of tenants) or their rental situation (on the part of property owners/managers). The ability to access this information over phone/email reduced physical contact but also improves landlord-tenant relations and provides the opportunity for households to avoid illegal eviction and homelessness, and the loss of much-needed rent for owners/managers to continue to keep up their properties.

Program	Funding Type	Budgeted	Funding Drawn Through 6/30/2023	Balance as of 7/1/2023	Outcome Type	# Served Through 6/30/23	COVID-19 Pandemic Health/Economic Issue Mitigated by the Program	Program Accomplishment Narrative
Foreclosure Prevention	CDBG-CV	\$179,000	\$165,769.20	\$13,231	Households	147	Risk of displacement and loss of housing as well as ruination of financial situation and stability. In addition, potential illegal or unethical lender/servicer practices were mitigated. Loss of housing increased risk of contracting COVID if household has to go to congregate shelter or stay with friends/family, as well as the increased difficulty of finding housing at a time when it was unsafe to go into enclosed spaces as well as a much more expensive housing market.	Households were assisted to avoid the loss of their home to foreclosure. This includes budget counseling, assessment of situation and options, advocacy to the lender/servicer as well as potential funders (such as New York State who had grant funds available), and even counseling/referrals to other agencies to support the household to prevent further issues or recover from their current financial issue created or exacerbated by the pandemic.
Aging In Place	CDBG-CV	\$128,000	\$91,780.00	\$36,220	Households	6961	The elderly were recommended to observe strict isolation protocols as they were at higher risk of adverse health outcomes when contracting COVID-19 virus. This however increased the risk for these households to go hungry or lack proper nutrition. The goal was to eliminate as much exposed to the virus as possible.	Lifespan provided prescription pickup, grocery cards and food deliveries to elderly City residents. This enabled the elderly residents to remain in their homes, and not risk exposure to COVID-19 virus in order to purchase necessities. They provided transportation to vaccine locations. The elderly also were provided small home repair that allowed them to remain safely in their homes during this time.

Program	Funding Type	Budgeted	Funding Drawn Through 6/30/2023	Balance as of 7/1/2023	Outcome Type	# Served Through 6/30/23	COVID-19 Pandemic Health/Economic Issue Mitigated by the Program	Program Accomplishment Narrative
Landlord Grant (Vacant Unit Rehab)	CDBG-CV	\$300,000	\$243,592.43	\$56,408	Rental Units	51	Landlords were impacted by loss of rents during the pandemic due to the high rate of unemployment occurring in the City. The program was created to assist this population by providing financial assistance to undertake needed repairs in vacant rental units, thereby increasing the availability of affordable housing to low-income renters.	The program provided assistance to 51 rental units whereby repairs were made to enable owners to obtain a certificate of occupancy. Repairs include such work as electrical, plumbing, mechanical, corrections to code violations and other health and safety issues. Completed units were made available to low-income families with incomes at or below 60% of the area median income.
Emergency Assistance Rehab	CDBG-CV	\$100,000	\$100,366.00	\$-	Households	57	Low-income households were impacted by the significant rise of unemployment during the pandemic. Disposal income for housing repairs were diminished during this time. The program provided financial assistance to this population to replace non-working furnaces and hot water tanks.	The program provided assistance to 57 households where new furnaces and hot water tanks were installed. This provided significant relief to homeowners that otherwise could not have paid for these repairs.

Program	Funding Type	Budgeted	Funding Drawn Through 6/30/2023	Balance as of 7/1/2023	Outcome Type	# Served Through 6/30/23	COVID-19 Pandemic Health/Economic Issue Mitigated by the Program	Program Accomplishment Narrative
Digital Divide (Laptops for RCSD Students)	CDBG-CV	\$1,021,038	\$1,020,996.81	\$41	Children	2901	Social distancing required the Rochester City School District to shift to remote learning via zoom. However, many low income student households did not have a compatable computer, adequate internet, or both. If left unaddressed, the pandemic could have contributed to an even more significant learning gap for low income households, who already have worse outcomes in normal times.	The City partnered with RCSD and local philanthropic organizations coordinated by the United Way of Greater Rochester the Finger Lakes. CDBG funding was utilized to purchase and distribute laptops to 2901 children. Internet and other needs were addressed through other funding sources. Given that students continued remote learning for over a year, this activity had a major impact in mitigating learning loss and other issues. The positive impact will continue even after in-person learning resumes.

Program	Funding Type	Budgeted	Funding Drawn Through 6/30/2023	Balance as of 7/1/2023	Outcome Type	# Served Through 6/30/23	COVID-19 Pandemic Health/Economic Issue Mitigated by the Program	Program Accomplishment Narrative
Financial Empowerment Centers	CDBG-CV	\$125,000.00	\$116,430.92	\$8,569	People	405	The pandemic led to increased unemployment and economic hardship for large swaths of the population, particularly for low income households. This contributed to housing instability and other serious challenges. The Rochester Financial Empowerment Centers (FEC) provides free 1-1 financial coaching services to households that can help mitigate these challenges. This includes helping households increase their savings, reduce their debt, create and manage their budgets, access safe and affordable banking, as well as provide referrals to other support programs.	CARES funding helped to provide expanded services through the FEC to serve households impacted by pandemic economic hardship. Through 6/30/2023 the CARES funding helped serve 405 households with average annual household income of less than \$30,900. 221 clients were able to achieve major FEC outcomes: 9 clients established credit after being credit invisible, 78 increased their savings by at least 1 week worth of income, 101 increased their credit scores by at least 35 points, 34 opened safe and affordable bank accounts, and 136 clients reduced a total of 347 delinquent accounts. 113 clients were able to reduce their non-mortgage debt by 10%.

Homeless Prevention	ESG-CV	\$2,558,998.42	\$2,373,553.31	\$185,445	People	2354	<p>The pandemic shed light on how unstable and tenuous housing situations were for many ELI and VLI renters. Households with severe rent burdens are often one emergency away from an eviction, and COVID played that part for many. Homeless persons and those at risk of homelessness were at higher risk of both catching and transmitting COVID, and moving during a pandemic increases that risk. Financially, there was a correlation between higher economic impact/loss as incomes went down. These programs mitigated the financial losses of landlords and tenants, and reduced transmissibility by keeping people stably housed.</p>	<p>Several programs were funded, to provide different forms of support to persons facing various kinds of housing instability. Grantees provided direct financial assistance, including rental arrears assistance (up to 6 months), rental assistance, security deposits, and 1st month's rent to ensure housing stability was re-established or secured. The City worked with the County, CoC, and local service providers to perform outreach and inform tenants and landlords as to their rights, responsibilities, and potential solutions. Resources were pooled, and funders planned and implemented a single point of entry system for all eviction and homelessness prevention resources. The system was initially funded by City and County ESG-CV resources, and was eventually used to deploy ERAP and ARP arrears dollars. Early in the pandemic, the majority of households served by ESG-CV were given arrears assistance. ESG-CV was the first arrears funding assistance available to the City and our community, and was in high demand when the program came online in mid-2020. After additional arrears dollars were provided, most with more flexible eligibility criteria, ESG-CV was primarily used for security deposits and 1st month's rent. In total, 225 households were provided arrears assistance and 111 households were provided with security deposits and 1st month's rent. ESG-CV dollars were also used to fund a</p>

Program	Funding Type	Budgeted	Funding Drawn Through 6/30/2023	Balance as of 7/1/2023	Outcome Type	# Served Through 6/30/23	COVID-19 Pandemic Health/Economic Issue Mitigated by the Program	Program Accomplishment Narrative
								<p>program that provided legal assistance for those facing eviction, and an eviction information/intake hotline. While 1887 persons were served according to standard homelessness prevention reporting, many more were provided assistance in some form. Of those 1887, The Tenant Defense Project served all households facing eviction, through legal representation, mediation, and negotiation with landlords on behalf of tenants. Over 16,000 calls were answered by the eviction information hotline, and over 7,000 intakes were completed across the program. Attorneys were able to prevent or delay evictions in over 90% of cases that made it to court.</p>

Program	Funding Type	Budgeted	Funding Drawn Through 6/30/2023	Balance as of 7/1/2023	Outcome Type	# Served Through 6/30/23	COVID-19 Pandemic Health/Economic Issue Mitigated by the Program	Program Accomplishment Narrative
Emergency Shelter + HMIS Data Entry	ESG-CV	\$924,057.50	\$793,200.66	\$130,857	People	7608	Shelter operators faced significant challenges throughout COVID. The persons served by shelters during this time had high needs and higher risk of transmission. Most shelters were congregate in nature, and social distancing was not a viable option. The entire community participated in a "Decompression", which saw the highest risk shelter residents placed in hotels, and ultimately permanently housed. Shelters faced financial losses due to an inability to fundraise, and the decompression effort, while very necessary, reduced the amount of funding shelters received in per diems from the County.	Over a dozen shelters provided services to the community throughout the pandemic, and all remained open and offered services in-person. Most of the Emergency Shelter Operations funding supported expenses like hazard pay, COVID related training, staffing, and general operations. A local non-profit was able to provide the majority of cleaning and personal safety supplies, while ESG-CV funding filled gaps in budgets to ensure staffing remained sufficient and stable. This was especially important given the uncertainty around the eviction moratoria. Since the start of the pandemic, 5642 households were served, including; 2330 children, 1850 persons with a mental health disorder, and over 1017 persons with a physical disability. 759 households were fleeing domestic violence, with over half of those including children. Lastly, the City funded Partners Ending Homelessness (local CoC) to provide additional technical assistance for HMIS to any ESG-CV grantees, new and old.

Program	Funding Type	Budgeted	Funding Drawn Through 6/30/2023	Balance as of 7/1/2023	Outcome Type	# Served Through 6/30/23	COVID-19 Pandemic Health/Economic Issue Mitigated by the Program	Program Accomplishment Narrative
Rapid Rehousing	ESG-CV	\$670,328.85	\$670,328.85	\$-	People	557	Early in the pandemic, much of the focus was on prevention; with COVID transmission, moving (new leases), and evictions (also homelessness). However, prevention was not the best option for many. For rent burdened households, especially ELI and VLI households or those with severe rent burdens, the pandemic magnified how unstable their housing situations were.	Our RRH partners provided traditional RRH assistance to the community, and also focused efforts on persons impacted by the "decompression". These programs provided security deposits, short term rental assistance, and ongoing case management and general support to all clients. The need for RRH assistance increased over time, while our prevention programs continued to demonstrate that other interventions were needed. Prevention was the preferred choice, but not at the expense of a household's long-term financial/housing stability. In total, 557 persons (290 households) were served and engaged, with 400 persons (183 households) successfully moving on to permanent housing options. Of those 400 persons housed; 133 had a mental health disorder, 67 had a chronic health condition, and 81 had a physical disability.

Program	Funding Type	Budgeted	Funding Drawn Through 6/30/2023	Balance as of 7/1/2023	Outcome Type	# Served Through 6/30/23	COVID-19 Pandemic Health/Economic Issue Mitigated by the Program	Program Accomplishment Narrative
Street Outreach	ESG-CV	\$619,616.73	\$342,621.79	\$276,995	People	135	Unhoused persons' problems were exacerbated and extended during the pandemic. Shelter capacity went down, mobile services were reduced or suspended, and housing became even more difficult to secure. Landlords became more risk averse, and were often not willing to rent to households with imperfect rental histories. Some landlords stopped renting units altogether. Lastly, persons living on the streets could sometimes make ends meet through panhandling, but even this resource was essentially non-existent (remote work, income uncertainty amongst general public, etc.).	Street outreach teams worked with unhoused persons to develop relationships and provide services and housing options to those that want them. With many businesses, services, and individuals working remotely, outreach teams were an invaluable resource to the community, and were often the only way unhoused persons had to learn about and secure services or housing. The City's unsheltered homeless population and number of encampments remained relatively stable throughout much of the pandemic, but they have both increased since the end of the eviction moratoria. The City anticipates that this trend will continue, and, in September 2022, committed \$250,000 in ESG-CV to a street outreach program. Of the 102 persons served, 58 were chronically homeless.

Support for persons with AIDS	HOPWA -CV	\$142,029.00	\$138,925.20	\$3,104	People	495	Individuals and families who have members with AIDS had significantly higher health risk when exposed to COVID-19 virus. The added burden of safe isolation and lack of proper nutrition caused by the inability to get access to food in a safe environment created a need for these services.	CCCS and Trillium Health provided rental assistance to help with isolation protocol during the pandemic. Cards for food services were also provided to these vulnerable individuals.

Housing Opportunities for Persons With AIDS (HOPWA) Program

Consolidated Annual Performance and Evaluation Report (CAPER)

Fiscal Year: 2022-23 (7/1/2022 to 6/30/2023)

Grantee: City of Rochester

Subrecipients:

- Trillium Health
- Catholic Charities Family and Community Services, Inc.

GRANTEE SUMMARY	
Complete the chart below to provide more detailed information about the agencies and organizations responsible for the administration and implementation of the HOPWA program.	
Question	Responses
For Competitive Grantees Only	
For Competitive Grantees only, what is the grant number?	
For Competitive Grantees only, which year (1, 2, or 3) of the grant does this report cover?	
Is the Competitive Grantee a nonprofit organization? Yes or No.	
Is the Competitive Grantee a grassroots organization? Yes or No.	
For Competitive Grantees only, how much was expended on an "Other Housing Activity" (as approved in the grant agreement)?	
For All HOPWA Grantees	
What is the name of the Grantee organization?	City of Rochester
What is the Grantee's Unique Entity Identifier (UEI)?	CU87RABY53C9
What is the Employer ID Number (EIN) or Tax ID Number (TIN) of the Grantee?	16-6002551
For formula grantees only, are there any changes to your program year? Yes or No.	No
Note: HUD must be notified of consolidated program year changes at least two months before the date the program year would have ended if it had not been lengthened, or at least two months before the end of a proposed shortened program year.	
If yes above, what is the revised program start date?	
If yes above, what is the revised program end date?	
What is the street address of the Grantee's office?	30 Church St, Room 224B
In what city is the Grantee's business address?	Rochester
In what county is the Grantee's business address?	Monroe
In what state is the Grantee's office located?	New York
What is the zip code for the Grantee's business address?	14614
What is the parent company of the Grantee (if applicable)?	
What department at the Grantee organization administers the grant?	Neighborhood and Business Development
What is the Grantee organization's website address?	www.CityofRochester.gov
What is the Facebook name or page of the Grantee?	City of Rochester, NY - Mayor's Office
What is the Twitter handle of the Grantee?	CityRochesterNY
What are the cities of the primary service area of the Grantee?	Rochester
What are the counties of the primary service area of the Grantee?	Monroe County
What is the congressional district of the Grantee's business address?	25
What is the congressional district of the Grantee's primary service area?	25
Is there a waiting list(s) for HOPWA Housing Subsidy Assistance Services in the Grantee service area? Yes or No.	Yes
Is the Grantee's System for Award Management (SAM) status currently active for this report? Yes or No.	Yes
What is the Grantee's SAM registration number for this report?	CU87RABY53C9
Does the Grantee provide HOPWA-funded services directly to clients? Yes or No.	No
Does the Grantee take the allowable 3% Grantee Administration allowance? Yes or No.	Yes
How much was expended on Grantee Administration?	\$ 30,863.99

In what department does the Services contact work?	Trillium Health, Community Support

What is the Services contact email?	rhauck@trilliumhealth.org
What is the Services contact phone number (including extension)?	585-210-4180
What is the Services contact fax number?	N/A

Narrative Questions	Response - Maximum 4,000 characters for each question.
<p>Provide a maximum of 4,000 characters narrative summarizing major achievements and highlights that were proposed and completed during the program year. Include a brief description of the grant organization, area of service, the name(s) of the program contact(s), and an overview of the range/type of housing activities provided. This overview may be used for public information, including posting on HUD's website.</p>	<p>The HOPWA Program year 2022-2023 saw staff and consumers going back to regular program operations such as home visits and housing inspections. Many of the COVID 19 restrictions that were in place in 2021 were relaxed in the community. Staff still have the option of working from home if their schedule warrants this. Consumers returned to face-to-face medical appointments and other services. Some consumers utilized Zoom and Videochat to access their medical providers. A bit of normalcy returned to the program.</p> <p>Trillium Health currently has funding to provide LTBRA assistance to 48 households living with HIV. In addition, we also assist households seeking funds for emergency rent, utility reconnection, and limited mortgage assistance. We also provide assistance to households in need of a security deposit, 1st months' rent or utility deposit. The program operated at near capacity for the entire reporting period (7/1/22-6/30/23). The grant covers Monroe, Ontario, Wayne and Livingston counties.</p> <p>The CCFCS HOPWA program collaborates with Catholic Charities Family & Community Services (CCFCS's) AIDS Institute Housing grants. For example: HOPWA would assist with security deposits and AIDS Institute would assist with the first month's rent and household items. CCFCS has administered the HOPWA Program since 1994. (29 years). CCFCS provides housing, employment, and coordination of care to help people of all ages and all walks of life live independently with dignity, while facing the challenges of addiction, aging, mental illness, HIV+, poverty, developmental disabilities, and immigration. CCFCS serves the following counties in New York: Monroe, Wayne, Cayuga, Seneca, Ontario, Livingston, Yates, Schuyler, Tompkins, Steuben, Chemung, and Tioga. Specific HOPWA housing activities at CCFCS include Tenant Based Rental Assistance (TBRA), Short Term Rent, Mortgage, and Utility Assistance (STRMU) and Permanent Housing Placement (PHP).</p>

<p>Assess your program's success in enabling HOPWA beneficiaries to establish and/or better maintain a stable living environment in housing that is safe, decent, and sanitary, and improve access to care.</p> <p>Compare current year results to baseline results for clients. Describe how program activities/projects contributed to meeting stated goals. If program did not achieve expected targets, please describe how your program plans to address challenges in program implementation and the steps currently being taken to achieve goals in next operating year. If your program exceeded program targets, please describe strategies the program utilized and how those contributed to program successes.</p>	<p>Trillium's projected number of households to be served and the actual numbers for 2022-2023 are below.</p> <ul style="list-style-type: none"> •TBRA-Projected-46Actual-53 •STRMU-Projected-20Actual-14 •PH Placement-Projected-30Actual-28 •TOTAL-96Actual-95 <p>Trillium narrative: The program achieved its annual goals and was able to prevent homelessness by maintaining monthly contact with our participants. At minimum, the monthly contacts allowed staff to ask questions related to housing stability and determining if linkage to additional services are needed for each household. The LTBRA component of the HOPWA grant shows that if individuals /families are housed in safe, affordable housing options, they stay housed for at least 2 years or more. In addition, LTBRA, has allowed households to stay in their current apartment even though rents have risen anywhere from \$50-\$150 per year. Unfortunately, due to increase in delinquent rents, we were not able to assist all applicant seeking rent relief due to the amounts owed on average (\$3000-\$6000). We were able to offer eligible applicants assistance with 1st months' rent and /or security deposits, if we could not assist with emergency rent.</p> <p>CCFCS projected number of households to be served and the actual numbers for 2022-2023 are below.</p> <ul style="list-style-type: none"> •TBRA-Projected-45Actual-45 •STRMU-Projected-10Actual-1 •PH Placement-Projected-10Actual-32 •Bus Passes-Projected-20Actual-7 •TOTAL-85Actual-85 <p>CCFCS Narrative: The program achieved its annual goals. CCFCS spent about two thirds of the total annual HOPWA contract amount on TBRA. TBRA rent subsidies are the program's priority. Due to Tenant Based Rental Assistance consumers housing is safer, stable, more affordable, monthly rent payments are stable, the chance of homelessness is minimal, and support service and medical appointment adherence is stable. HOPWA staff are always aware of other programs and resources consumers can be referred to if needed such as Medical Transportation, Health Homes Care Management, Employment Services, Engagement Services, Mental Health Services, Food and Clothing Cupboards, Drug and Alcohol Rehabilitation Services, specific services for the aging such as Lifeline, Eldercare, and Meals on Wheels to name a few.</p>
<p>Describe significant accomplishments or challenges in achieving the number of housing units supported and the number households assisted with HOPWA funds during this operating year compared to plans for this assistance, as approved in the Consolidated Plan/Action Plan. Describe how HOPWA funds were distributed during your operating year among different categories of housing and geographic areas to address needs throughout the grant.</p>	<p>Trillium: The majority of housing assistance funds (LTBRA, STRMU, PHP) were distributed within the City Of Rochester limits. Of significant importance, was the fact that during COVID shutdown, many people whom did not have an ongoing subsidy, could not keep up with monthly rental payments, and as a result are facing imminent eviction. Due to the increase in these situations and the amount of past due rent owed, we could not help everyone who applied. See above section for full breakdown of goals and outcomes.</p> <p>CCFCS:</p> <ul style="list-style-type: none"> •Twenty-two TBRA consumers cases closed during 2022-2023. Fifteen new TBRA cases were opened in 2022-2023. •Of the twenty-two closures, three consumers passed away, two consumers were above program income maximums, seven consumers received other rent subsidies, one consumer abandoned his apartment, one consumer moved out of state, four consumers no longer needed the program, and four consumers were closed due to non-compliance with program requirements. •Of the twenty-two closures, seventeen were for stable housing reasons. Consumers who are living with HIV+ are remaining healthier longer with better medications and excellent HIV+ care in Rochester, NY. •See above section for breakdown of goals and outcomes.

<p>Report on program coordination with other mainstream housing and supportive services resources, including the use of committed leveraging from other public and private sources that helped to address needs for eligible persons identified in the Consolidated Plan/Strategic Plan.</p>	<p>The agencies worked closely with partners to build and maintain relationships with providers in the community that serve the HIV+ community. This allowed them to link participants to services that they do not provide, such as Case management, and specialty medical care.</p> <p>Programs include:</p> <ul style="list-style-type: none"> •Monroe County Continuum of Care, •Monroe County Emergency Housing, •Homeless Services Network, •Housing Council, •Monroe County TANF, •Rochester Area Task Force on AIDS, •Trillium Health, •Providence Housing Corporation, •Unity Health Infectious Disease Clinic, •Rochester Housing Authority, •University of Rochester Medical Center Infectious Disease Clinic, •Anthony Jordan Health Centers, •Rochester Regional Health, <p>Internally at CCFCS there are several programs that HOPWA collaborates with to link participants into care such as:</p> <ul style="list-style-type: none"> •Care Management, •Specialty Care Management, •Employment, •Supportive Case Management, •Medical Transportation, •NYS AIDS Institute HomeSOURCE, •Behavioral Health.
<p>Describe any program technical assistance needs and how they would benefit program beneficiaries.</p>	<p>Both agencies frequently accesses Technical Support through our state regional HUD office in Buffalo, NY and from The City of Rochester. They can also access specific community wide data from Rochester Area Task Force on AIDS and the Monroe County Department of Health. CCFCS also collaborates with Trillium Health to share best practices.</p>

<p>Describe any barriers (including regulatory and non-regulatory) encountered in the administration or implementation of the HOPWA program, how they affected your program's ability to achieve the objectives and outcomes discussed, and, actions taken in response to barriers, and recommendations for program improvement. Provide an explanation for each barrier selected. Describe any trends in the community that may affect the way in which the needs of persons living with HIV/AIDS are being addressed, and provide any other information important to the future provision of services to this population. Identify any evaluations, studies, or other assessments of the HOPWA program that are available to the public.</p>	<p>The following are program barriers and trends in consumer needs:</p> <p>New CAPER Data Reporting Elements: the agencies did not collect data on demographics for other household members, income levels, sources of income, viral load, prior living situations, exits to other programs, and other required factors. The City and agencies will be utilizing the first year lienency HUD has established in reporting these new elements. The agencies are in the process of implementing databases to track all needed data for the 2023-24 CAPER.</p> <p>Limitations of Funding: The main barrier for the program achieving greater outcomes and reaching more eligible households is that there are not enough funds to serve the HIV+ community. There is typically a wait list of over 50 people at each agency. The average wait is 2+ years, thus not meeting the need.</p> <p>Supportive Services: Programs work together to pool resources and help consumers maintain their housing and their health outcomes. The barriers are more basic like childcare, transportation, access to grocery stores, medical appointments, job interviews, and appointments at social services.</p> <p>Housing Affordability/Rent Determination and Fair Market Rents: Fair Market Rents (FMR) are adjusted by HUD annually as a guide for consumers who are looking for new apartments. Rents tend to go up as FMR's go up. Consumers often must sacrifice the quality and safety of the area they want to live in to afford an apartment.</p> <p>Multiple Diagnosis: As staff work with consumers daily, they discover that an HIV+ diagnosis for their consumer is the gateway to getting their consumer into services. Once enrolled, multiple issues come to the forefront such as chronic mental illness, chronic homelessness, drug and alcohol use, diabetes, renal failure, developmental disabilities, asthma, etc. Many of these chronic illnesses affect the consumer's quality of health and housing.</p> <p>Credit history, Housing availability, Rent history, and Criminal History: Consumers find that adequate housing becomes unavailable if they have struggled with the above four barriers. Housing retention is a key to HOPWA TBRA success. There are barriers to getting into an adequate apartment and there are barriers to retaining an apartment such as evictions, apartment foreclosure, change of ownership, apartment being unfit</p>

Please complete for organizations designated to serve as project sponsor, i.e., organizations involved in the direct delivery of services for client households, as defined by 24 CFR 574.3.

Project Sponsor Questions	Responses
What is the organization's name?	Catholic Charities Family and Community Services
What is the organization's Unique Entity Identifier (UEI)?	N8HJNB39KPM3
What is the organization's Employer ID Number (EIN) or Tax ID Number (TIN)?	16-0743945
What is the HOPWA contract amount for this organization?	\$521,479.27
What is the organization's business street address?	1099 Jay Street Bldg. J
In what city is the organization's business address?	Rochester
In what county is the organization's business address?	Monroe
In what state is the organization's business address?	New York
What is the organization's business address zip code?	14611
What is the organization's parent company, if applicable?	Diocese of Rochester
What department administers the organization's grant?	Supportive Services
What is the organization's phone number (including extension)?	(585) 339-9800
What is the organization's fax number?	(585)339-9377
What is the organization's website?	www.fcscharities.org
What is the organization's Facebook page?	Catholic Charities Family and Community Services
What is the organization's Twitter handle?	fcscharities
Is this a faith-based organization? Yes or No.	Yes
Is this a nonprofit organization? Yes or No.	Yes
Is this a grassroots organization? Yes or No.	No
What are the cities of the organization's primary service area?	Rochester
What are the counties of the organization's primary service area?	Monroe, Chemung, Genesee, Livingston, Ontario, Orleans, Wayne, Wyoming and Yates
In what congressional district is the organization located?	25th
In what congressional district is the primary service area?	25th

Is there a waiting list for HOPWA housing subsidy assistance services in the organization's service area? Yes or No.	Yes
Project Sponsor Non-Direct Service Expenditures	
What were the total HOPWA funds expended for Administration costs?	\$34,115.00
How much was expended on Technical Assistance?	0
How much was expended on Resource Identification?	0

Total number of HOPWA-eligible individuals served with HOPWA assistance (rows 4-13):	68																												
Total number of other household members (beneficiaries) served with HOPWA assistance (rows 16-25):	0																												
How many other household members (beneficiaries) are HIV+?	0																												
How many other household members (beneficiaries) are HIV negative or have an unknown HIV status?	0																												
Complete Prior Living Situations for HOPWA-eligible Individuals served by TBRA, P-FBH, ST-TFBH, or PHP																													
How many HOPWA-eligible individuals continued receiving HOPWA assistance from the previous year?	37																												
How many individuals newly receiving HOPWA assistance came from:																													
A place not meant for human habitation?	1																												
An emergency shelter?	3																												
A transitional housing facility for formerly homeless persons?	0																												
A permanent housing situation for formerly homeless persons?	0																												
A psychiatric hospital or other psychiatric facility?	0																												
A substance abuse facility?	0																												
A non-psychiatric hospital?	0																												
A foster care home?	0																												
Jail, prison, or a juvenile detention facility?	0																												
A rented room, apartment or house?	19																												
A house the individual owned?	0																												
Staying at someone else's house?	7																												
A hotel or motel paid for by the individual?	0																												
Any other prior living situation?	0																												
How many individuals newly receiving HOPWA assistance didn't report or refused to report their prior living situation?	6																												
How many individuals newly receiving HOPWA assistance during this program year reported a prior living situation of homelessness [place not for human habitation, emergency shelter, transitional housing]:	4																												
Also meet the definition of experiencing chronic homelessness?	4																												
Also were veterans?	0																												

Report the source(s) of cash or in-kind leveraged federal, state, local or private resources identified in either the Consolidated or Annual Plan (for formula grantees) or the grant proposal/application (for competitive grantees) and used in the delivery of the HOPWA program and the amount of leveraged dollars.

What is the amount and type of leveraged funding that was provided by any of these sources?	Funding for this Report	Was this a Housing Subsidy Assistance? Yes or No.

Worker's Compensation	0
General Assistance (GA), or local program	0
Unemployment Insurance	0

Other Sources of Income	0
How many households maintained no sources of income?	0
Medical Insurance for Households Served by this Activity	
How many households accessed or maintained access to the following sources of medical insurance in the past year?	
MEDICAID Health Program or local program equivalent	30
MEDICARE Health Insurance or local program equivalent	15
Veterans Affairs Medical Services	0
AIDS Drug Assistance Program	0
State Children's Health Insurance Program (SCHIP) or	0
Ryan White-funded Medical or Dental Assistance	0
Health Outcomes for Households Served by this Activity	
How many HOPWA-eligible individuals served with TBRA this year have ever been prescribed Anti-Retroviral Therapy?	45
How many HOPWA-eligible persons served with TBRA have shown an improved viral load or achieved viral suppression?	30
Longevity for Households Served by this Activity	45
How many households have been served with TBRA for less than one year?	14
How many households have been served with TBRA for more than one year, but less than five years?	20
How many households have been served with TBRA for more than five years, but less than 10 years?	11
How many households have been served with TBRA for more than 10 years, but less than 15 years?	0
How many households have been served with TBRA for more than 15 years?	0
Housing Outcomes for Households Served by this Activity	45
How many households continued receiving HOPWA TBRA assistance into the next year?	39
How many households exited to other HOPWA housing programs?	1
How many households exited to other housing subsidy programs?	0
How many households exited to an emergency shelter?	0
How many households exited to private housing?	0
How many households exited to transitional housing (time limited - up to 24 months)?	0

How many households exited to an institutional arrangement expected to last less than six months?	0
How many households exited to institutional arrangement expected to last more than six months?	0
How many households exited to a jail/prison term expected to last less than six months?	0
How many households exited to a jail/prison term expected to last more than six months?	0
How many households exited to a situation that isn't transitional, but is not expected to last more than 90 days and their housing situation after those 90 days is uncertain?	0
How many households exited to a place not meant for human habitation?	0
How many households were disconnected from care?	4
How many of the HOPWA eligible individuals died?	1

Complete this section for all Households served with HOPWA Short-Term Rent, Mortgage, and Utilities Assistance (STRMU) by your organization in the reporting year.

Question	This Report
Households Served by this Activity - STRMU Breakdown	
a. How many households were served with STRMU mortgage assistance only ?	0
b. How many households were served with STRMU rental assistance only ?	0
c. How many households were served with STRMU utilities assistance only ?	1
d. How many households received more than one type of STRMU assistance?	0
STRMU Households Total	1
STRMU Expenditures	
What were the HOPWA funds expended for the following budget line items?	
STRMU mortgage assistance	0
STRMU rental assistance	0
STRMU utility assistance	350
Total STRMU Expenditures	350
Income Levels for Households Served by this Activity	1
What is the number of households with income below 30% of Area Median Income?	1
What is the number of households with income between 31% and 50% of Area Median Income?	0
What is the number of households with income between 51% and 80% of Area Median Income?	0
Sources of Income for Households Served by this Activity	
How many households accessed or maintained access to the following sources of income in the past year?	1
Earned Income from Employment	0
Retirement	0
SSI	1
SSDI	0
Other Welfare Assistance (Supplemental Nutrition	0
Private Disability Insurance	0
Veteran's Disability Payment (service or non-service	0
Regular contributions or gifts from organizations or	0
Worker's Compensation	0
General Assistance (GA), or local program	0
Unemployment Insurance	0

Other Sources of Income	0
How many households maintained no sources of income?	0
Medical Insurance for Households Served by this Activity	
How many households accessed or maintained access to the following sources of medical insurance in the past year?	
MEDICAID Health Program or local program equivalent	1
MEDICARE Health Insurance or local program equivalent	0
Veterans Affairs Medical Services	0
AIDS Drug Assistance Program	0
State Children's Health Insurance Program (SCHIP) or local program equivalent	0
Ryan White-funded Medical or Dental Assistance	0
Longevity for Households Served by this Activity	1
How many households have been served by STRMU for the first time this year?	1
How many households also received STRMU assistance during the previous STRMU eligibility period?	0
How many households received STRMU assistance more than twice during the previous five eligibility periods?	0
How many households received STRMU assistance during the last five consecutive eligibility periods?	0
Housing Outcomes for Households Served by this Activity	1
How many households continued receiving this type of HOPWA assistance into the next year?	0
How many households exited to other HOPWA housing programs?	1
How many households exited to other housing subsidy programs?	0
How many households exited to an emergency shelter?	0
How many households served with STRMU were able to maintain a private housing situation without subsidy?	0
How many households exited to transitional housing (time limited - up to 24 months)?	0
How many households exited to institutional arrangement expected to last less than six months?	0

How many households exited to institutional arrangement expected to last more than six months?	0
How many households exited to a jail/prison term expected to last less than six months?	0
How many households exited to a jail/prison term expected to last more than six months?	0
How many households exited to a situation that isn't transitional, but is not expected to last more than 90 days and their housing situation after those 90 days is uncertain?	0
How many households exited to a place not meant for human habitation?	0
How many households were disconnected from care?	0
How many of the HOPWA eligible individuals died?	0
How many households are likely to need additional Short-Term Rent, Mortgage and Utilities assistance to maintain the current housing arrangements?	0

Complete this section for all Households served with HOPWA Permanent Housing Placement (PHP) assistance by your organization in the reporting year.

Question	This Report
<i>Households Served by this Activity</i>	
How many households were served with PHP assistance?	32
<i>PHP Expenditures for Households Served by this Activity</i>	
What were the HOPWA funds expended for PHP?	40,847.07
<i>Sources of Income for Households Served by this Activity</i>	
How many households accessed or maintained access to the following sources of income in the past year?	32
Earned Income from Employment	9
Retirement	0
SSI	15
SSDI	3
Other Welfare Assistance (Supplemental Nutrition Assistance Program, WIC, TANF, etc.)	0
Private Disability Insurance	0
Veteran's Disability Payment (service or non-service connected payment)	0
Regular contributions or gifts from organizations or persons not residing in the residence	0
Worker's Compensation	0
General Assistance (GA), or local program	0
Unemployment Insurance	0
Other Sources of Income	0
How many households maintained no sources of income?	5
<i>Medical Insurance for Households Served by this Activity</i>	
How many households accessed or maintained access to the following sources of medical insurance in the past year?	
MEDICAID Health Program or local program equivalent	21
MEDICARE Health Insurance or local program equivalent	11
Veterans Affairs Medical Services	0
AIDS Drug Assistance Program	0
State Children's Health Insurance Program (SCHIP) or local program equivalent	0
Ryan White-funded Medical or Dental Assistance	0

<i>Housing Outcomes for Households Served by this Activity</i>	26
<i>In the context of PHP, "exited" means the housing situation into which the household was placed using the PHP assistance.</i>	
How many households exited to other HOPWA housing programs?	12
How many households exited to other housing subsidy programs?	14
How many households exited to private housing?	0

Complete for all households served with HOPWA funded Supportive Services by your organization in the reporting year.

*Note that this table also collects **HOPWA Supportive Service expenditures.***

Questions	This Report	
Households and Expenditures for Supportive Service Types	Number of Households	Expenditures
What were the expenditures and number of households for each of the following types of supportive services in the program year?

Total Homelessness Prevention	1	55	28

Grant Information

Emergency Shelter Rehab/Conversion

Did you create additional shelter beds/units through an ESG-funded rehab project	No
Did you create additional shelter beds/units through an ESG-funded conversion project	No

Project Outcomes

Project outcomes are required for all CAPERS where the program year start date is 1-1-2021 or later. This form replaces the narrative in CR-70 of the eCon Planning Suite.

From the Action Plan that covered ESG for this reporting period copy and paste or retype the information in Question 5 on screen AP-90: "Describe performance standards for evaluating ESG."

Performance Standards are in alignment with the HUD required measures including reducing the duration of homelessness; reducing recidivism; reducing the number of people who become homeless; increasing employment and income; and stability in permanent housing. Additional local standards have also been established and are included in the community written standards; occupancy rate, number of days to respond to referrals, number of days from program entry to move-in date into RRH or PSH, etc.

These standards have been confirmed/reconfirmed by City, County, and CoC for program year 2022-23, and each organization will be expected to keep accurate and timely data and meet these goals. Each component type has different outcome/performance measures, but they are related to the goals stated in the previous question.

Emergency Shelter

- Average length of stay is less than 30 days
- 60% of participants exit with a successful housing outcome
- 50% of participants exit to permanent housing
- Less than 20% of participants exit to an unknown location
- 50% of participants exit with/linked to cash income
- 60% of participants exit with/linked to non-cash resources
- 90% average occupancy rate

Street Outreach

- 30% of all participants engaged will exit to permanent housing destinations
- 30% of all participants engaged will have successful exits from the program
- 70% or more of adult participants will have non-cash benefits
- 60% or more of adult participants will have income from sources other than employment
- 15% or more of adult participants will have income from employment
- 80% of participants will not return to homelessness within two years
- Average time from contact to engagement is 60 days
 - o Contact: Outreach worker meets client but may not collect any information
 - o Engagement: Client completes intake and is entered into HMIS
- Average time from engagement to successful exit from program is 45 days

Please see next section for Rapid Rehousing and Homeless Prevention standards.

Based on the information from the Action Plan response previously provided to HUD:

1. Briefly describe how you met the performance standards identified in A-90 this program year. *If they are not measurable as written type in N/A as the answer.*

All grantees reported on the necessary data points. Up until 2022-23, the performance measures were relied upon to ensure programs are setting goals that move our community towards a more stable housing environment. We expect each agency to make a best effort to attain each of the goals pertinent to their programs, but measures for some programs change due to population (youths, DV, etc.) and economic trends. Overall, the City expects the entire portfolio of programs/projects to meet these goals as well. Moving forward, any projects that do not meet performance measures will be expected to develop a plan to help them attain success in the future. These performance measures will be available to the ESG Proposal Review Committee, and will be part of the review committee's scoring as well (occurs once per year in early Spring). Except in rare circumstances, not meeting a performance measure should not determine if a program is or isn't funded, but it may point to individual aspects of their program that need tweaking, or it may lead to a better understanding of a larger problem facing our community or a specific population of persons.

Overall, the City's ESG funded partners performed well in 2022-23. The majority of programs met their performance measures, and, for those that did not, City staff are working with those agencies to determine how to ensure they do meet them this year.

2. Briefly describe what you did not meet and why. *If they are not measurable as written type in N/A as the answer.*

Any performance measures/standards that were not met are to be addressed through planning and program changes. Most shortfalls in program year 2022-23 are due to the increased challenge related to securing affordable housing. The City is shifted to new measurable performance standards in 2022-23. See more detail above and below.

OR

3. If your standards were not written as measurable, provide a sample of what you will change them to in the future? *If they were measurable and you answered above type in N/A as the answer.*

N/A

PR26 Adjustments 2022-23 (non-CARES)

1. Line 18
 - a. Add \$41,271.00 to reflect spending calculated based on PR07 and PR03 BOSMAC by matrix code. There is a known issue with the PR26 pulling in LMH activities correctly so this had to be manually calculated.
2. Line 28
 - a. Updated with obligated unexpended public service funds: \$45,376.37

Activity ID	Project	Balance	Obligation Flag	Obligated Amt
15463	Tenant and Landlord Services	\$ 6,463.40	1	\$ 6,463.40
15462	Foreclosure Prevention	\$ 21.28	1	\$ 21.28
15465	Foreclosure Prevention	\$ 5,580.03	1	\$ 5,580.03
15611	STEAM Engine	\$ 97,622.06		\$ -
15609	Job Creation/Youth Development	\$ 20,207.81		\$ -
15615	Job Creation/Youth Development	\$ 7,000.00		\$ -
15476	International Plaza	\$ 26,500.00	1	\$ 26,500.00
15176	Tenant and Landlord Services	\$ 6,811.66	1	\$ 6,811.66
15227	Job Creation/Youth Development	\$ 744.53		\$ -
TOTAL		\$ 170,950.77	-	\$ 45,376.37

3. Line 29
 - a. Updated with number on line 28 as reported in 2021-22 CAPER document
4. Line 38
 - a. Updated to \$13,482.00 based on PR03 BOSMAC balances

Activity ID	Project	Balance	Obligation Flag	Obligated Amt
15601	Administration	\$ 303,977.62		\$ -
14796	Planning and Studies	\$ 13,482.00	1	\$ 13,482.00
14474	Administration	\$ 2.40		\$ -
TOTAL		\$ 317,462.02		\$ 13,482.00

PR26 Adjustments CARES CDBG-CV

1. **Note:** this PR-26 has been calculated for spending through June 30, 2022 to align with the CAPER 2022-23 time period and the regular CDBG PR-26
2. Line 13
 - a. Updated to reflect \$105,182.43 of spending calculated based on PR07 and PR03 BOSMAC by matrix code. There is a known issue with the PR26 pulling in LMH activities correctly so this had to be manually calculated.
3. Line 15
 - a. Compute the revised % based on adjusted figure in line 13
