Project: Proposed project is for Atlantic Plywood for a 39,500 SF pre-engineered metal building for warehousing; bldg. will have two roof planes, the shorter portion housing loading docks, and the taller portion housing the main warehousing area and will feature a metal panel exterior with an accent band and a galvalume low-slope metal roof with doors and loading docks as shown on the drawings. Loading docks will be on the west elevation and two grade doors will be on the west and east facades creating an interior drive thru. The eave heights of the building vary between 21'-5", 23'-9" and 28'-0" with the ridge height is approximately 29'-8" above finish grade. Parking for the site will be relocated to the east side of the new addition which will utilize a previously paved area. The new entrance to the building will be relocated from the west side of the building to the east side, through existing parking areas for CanalSide Business Ctr. bldg.
