UNIFIED MUNICIPAL TRAIL SYSTEM
The majority of the City Trail System is accessible. Sections of the trails that have steep, rough, or narrow areas or steps are noted on detail trail maps and on warning signs on the trail. Look for the following symbols to indicate non-accessible trail sections:

- Trail System
- City Trail System
- Trail Access Information

The City of Rochester’s trail system is a network of trails which provide access from the Historic Erie Canal to Lake Ontario. The trail system connects to a network of regional trails including the NYS Seaway Trail, Canalway Trail, and the Genesee Valley Greenway Trail. The trail system is comprised of multi-use trail facilities and greenways open to non-motorized users for bicycling, hiking, skating, and cross-country skiing.

Rochester’s Trails contain a remarkable array of scenic, recreational, educational, and cultural assets. The trail system includes:

- More than ten parks featuring a beach, boardwalk, carousel, zoo, rose garden, picnic areas, tennis courts, and ball fields;
- Three waterfalls, wilderness areas, and a scenic gorge;
- Center City riverwalks and exciting downtown entertainment districts;
- Tour boats, canoe rentals, boat launches, and docking facilities;
- Museums, a lighthouse, and a world-class university;
- Restaurants, shops, historic sites, and attractive urban neighborhoods;
- Connections to a network of local and regional trails including the Canalway Trail, the Genesee Valley Greenway Trail and the NYS Seaway Trail;
- AND MUCH, MUCH MORE!
